The Immortal

Justice K. S. Hegde

Founder, Nitte Education Trust

Kowdoor Sadananda Hegde, born in Kowdoor village of Karnataka State, completed his early education at Karkala and Mangalore. Thereafter, he obtained a degree in Economics from the Presidency College, Madras and a degree in Law from the Government Law College, Madras.

K.S.Hegde began legal practice at Karkala in 1936, after which he moved to Mangalore, where he was appointed as Public Prosecutor of South Kanara District in 1948. He was elected member of the First Council of States (now known as the Rajya Sabha). In 1954, he represented India at the General Assembly of the United Nations. He then became a judge of the Mysore High Court. In 1966, he was appointed as the first Chief Justice of the Delhi and Himachal Pradesh High Court. He held this office till he has elevated to the post of Judge of the Supreme Court of India in 1967.

A man of integrity and strong values, Justice K. S. Hegde resigned from the post of Judge of the Supreme Court in 1973 in protest against the supersession of senior judges in the appointment of the Chief Justice of India. In 1977, he won the election to the Lok Sabha and was elected Speaker of the Lok Sabha, an office he held till 1980.

After a distinguished career spanning over four decades, Justice K. S. Hegde retired from public life and settled at Nitte to relentlessly work for the upliftment and empowerment of the rural people. He passed away on May 25, 1990.

Always in pursuit of truth and excellence of human endeavour, Justice K. S. Hegde began a journey of exploration that continues with Nitte Education Trust and Nitte University.

Message

N. V. Hegde

Chancellor, Nitte University &
President, Nitte Education Trust

I am happy that Nitte University is growing in all frontiers of higher learning. The University is steadily marching towards offering more robust and broad-based educational programs. This journey started three years when we offered programs in humanities and science. This year we have started a graduate program in Architecture, by which we have moved decidedly into engineering education.

Today's economy is driven by brainpower. Nitte University is committed to providing the students with the finest academic preparation for successful careers. Our teaching and training ensures that our students receive the highest quality education which introduces them to the frontiers of knowledge and provides them with the skills and discipline to contribute fully to whatever career they follow.

We have upgraded infrastructure of the research centres, library, classrooms and hospital. More student residences have been provided and soon we will have a residential campus. We now have a fully functional state-of-the-art research centre with a team of full-time researchers working on several funded research projects. International collaborations have resulted in student and staff exchange and joint projects. Though the year in passing has been a promising year academically, we will not be complacent and our pursuit for excellence will continue with greater enthusiasm.

By working closely with the community, we are proud to play a leadership role in enhancing economic prosperity, contributing to improvements in the health and well-being of the population, educating and empowering the marginalised sections.

At Nitte University, we believe that there is no better preparation for the demands of the future than a multi-faceted education and we are committed to this. This is grounded in a tradition of academic excellence, dedicated to the personal and intellectual development of its students. We believe that this will develop men and women prepared and capable of assuming highly responsible roles in life.

Message

Vishal Hegde

Pro-Chancellor (Administration)

During the last 8 years, our University has grown both in the areas of academics and research. This year has been significant as we have made huge investment in infrastructure. This was essential to make our campus state-of-the-art. We are glad to say that the student enrolments have increased and the new courses that have started are doing well in terms of admissions. Our commitment to excellence continues.

So far 5 batches have students have passed out from the University. I am sure that these students are pursuing rewarding careers. The University focuses on three pillars of enlightenment: Academic Excellence, Ethical Values and Social Responsibility. We are committed to constantly provide necessary inputs to the students to become well educated, appropriately employable and good citizens who will contribute towards over-all growth of the nation and live a worthwhile life.

I would like to tell all our stakeholders that we rededicate ourselves to bringing about appreciable and qualitative change in the education system, and to compete with the changing times and growing demands in this global era.

Best Wishes

Message

Prof. (Dr.) M. Shantharam Shetty

Pro-Chancellor
(Hosp. Mgmt & Medical PG Studies)

8 years in the life of a university is time to sit and take a note of our achievements and also our failures. Having been associated with our University right from its inception I am proud that every year has been a story of success, achievements and challenges faced.

This year's Annual Report by itself will show what we can achieve by teamwork and the unparallel leadership shown by our esteemed Chancellor. But there is much to achieve specially in the field of research, patient care and discipline. I am sure each year will better the previous year. Our focus is that each one of us from students to professors should be proud of our achievements and work for the betterment of our university.

With best wishes,

Message

Prof. (Dr.) S. Ramananda Shetty
VICE-CHANCELLOR

I am glad to pen down my thoughts for the annual report of the University. Our University consists of different faculties that have been developed into specialized centers. The courses offered at our University are interdisciplinary and they have been streamlined to meet the emerging demands both in the public and the private sector. This year we have moved from health sciences and humanities to engineering.

Nitte University has made significant progress in the last 8 years. The University curriculum is robust and contemporary and the courses are attracting students from all parts of the country. Our efforts in providing extensive infrastructure and strengthening our teaching, learning and research activities has been continuous.

You will read about the achievement of our outstanding students and staff, working together in a university dedicated to the needs of society. The students are provided with holistic education so that they not only become excellent professionals but also good human beings.

I extend my best wishes to the students and faculty who are a part of our University and to those who seek to join us in our mission to develop Nitte University as a Centre of Excellence imparting quality education, generating competent, skilled manpower to face the scientific and social challenges, with a high degree of credibility, integrity, ethical standards and social concern.

NITTE UNIVERSITY

Nitte University has been established Nitte Education Trust which has in its fold 28 institutions spread on 3 campuses at Nitte, Mangalore and Bangalore. A centre of excellence in education and community service in Karnataka State, Nitte Health Care institutions are duly recognized by the Government of India. In June 2008 [vide MHRD Notification No. F.9-13/2007-U.3(A) dated 4th June 2008 by the Ministry of Human Resource Development (Department of Higher Education), Government of India] the Government of India conferred the status of Deemed-to-be-University.

The University has five constituent colleges and a Department, namely, K. S. Hegde Medical Academy A. B. Shetty Memorial Institute of Dental Sciences N.G.S.M. Institute of Pharmaceutical Sciences Nitte Usha Institute of Nursing Sciences, Nitte Institute of Physiotherapy and a Department of Mass Communication & Journalism. All the constituent colleges are approved and recognized by the respective Central Statutory Councils. Nitte University has been accredited by NAAC with 'A' Grade and placed under category 'A' by the Ministry of Human Resource Development, Govt. of India.

With the strong commitment to social welfare and human empowerment, the University believes that education is complete only if we instill a sense of empathy in the students, by which they will understand the underprivileged sections of the society, thereby becoming men and women for others.

INFRASTRUCTURE:

The offices of Nitte University are housed on the 6th floor of the Medical Sciences Complex. All the constituent colleges, namely, K. S. Hegde Medical Academy (KSHEMA), A. B. Shetty Memorial Institute of Dental Sciences (ABSMIDS), Nitte Gulabi Shetty Memorial Institute of Pharmaceutical Sciences (NGSMIPS), Nitte Usha Institute of Nursing Sciences (NUINS), Nitte Institute of Physiotherapy (NIPT) and the Department of Mass Communication and Journalism are housed in independent buildings with the best of infrastructure and amenities and are located on a sprawling campus of over 50 acres at Deralakatte and Paneer, Mangalore.

ACCREDITATION

Nitte University is placed under category 'A' by MHRD vide letter No.F.9-26/2009-U.3(A)(Vol.5) dated 19-10-2012 and is ranked as category 'A' by NAAC with CGPA 3.11 grade points dated 25-10-2013.

Admissions:

The Nitte University has students from 21 states of India, USA, Middle East, Africa and Malaysia. Nitte University is a hub of different ethnic cultures and advanced centre of higher education. The admission to all courses is based on the marks obtained by the eligible candidates in the All India Common Entrance Test (NUPGET and NUUGET) conducted by Nitte University at 7 centres spread over the country. The procedure adopted for conducting the Entrance Test and seat selection is as per the guidelines given by UGC (for IDU) and MCI/DCI/AICTE. Admissions for 2011-12 were done as per the calendar of events specified in the brochure (prepared as per MCI/DCI/AICTE

guidelines). The University offers 25% seats to the Karnataka CET. The time schedules are strictly adhered to, starting from announcement of Entrance Test till sending the list of selected candidates to MCI/DCI with the specified dates.

Examination Section

The list of examinations conducted during the year and the analysis thereof is annexed herewith. Apart from these exams the pre Ph.D. course work examinations were conducted twice, once in June and once in December. The Ph.D. entrance exam was conducted in June. In addition, the Ph.D. thesis are sent for adjudication to three examiners (one within India, one outside India and the guide) as and when the candidates submit their thesis.

1	Mrs. Sainu Susan Oommen	Dr. Rajendra Holla Prof & HoD Dept of Pharmacology KSHEMA	<i>Synergistic effect of bio -active Components of Barley, Brown rice, Oats, Wheat and Sorghum (Brows) – In the treatment of Gastro intestinal disorders (In?ammatory bowl diseases and peptic Ulcer).</i>	NU15PHDM01 Rs. 30,000/- 21-08-2015

2	Mr. Mohammed Ashraf.C	Dr. Prasanna Kumar Shetty Professor of OBG KSHEMA	In-vitro maturation and fertilization of immature Oocytes: A comprehensive study of developmental competence with respect to fertilization, cleavage and blastocyst rate.	NU15PHDM02 Rs. 30,000/- 19-08-2015
3	Dr. Gangadhar Swamy M.S	Dr. Rajendra Holla, Professor & Head, Dept. Of Pharmacology, KSHEMA	To evaluate the effect of <i>Mucuna Pruriens</i> & <i>Convolvulus pluricaulis</i> morphological, Historical, branching pattern of dendritic spines of neurons, its neurotransmitters and its metabolites in the Substantia nigra & Hippocampus in certain neurodegenerative disorders of Albino mice.	NU15PHDM03 Rs. 30,000/- 18-08-2015
4	Mrs. Sharmila K.P	Dr. Ronald Fernandes Professor, Dept. Of Pharmaceutical Chemistry, NGSMIPS, Deralakatte	Evaluation of Immunostimulatory Potential of <i>Asparagus racemosus</i> root extract and Isoprinosine against Ionising Radiation Induced Immunosuppression	NU15PHDAH01 Rs. 15,000/- 19-08-2015
5	Mrs. Saumya Srivastava	Prof. Dhanesh Kumar K.U Principal, NIPT	Effect of Muscle Energy Technique (MET) versus mechanical diagnosis and therapy (MDT) on patients with sacroiliac joint dysfunction – a randomized clinical trial	NU15PHDAH02 Rs. 15,000/- 19-08-2015
6	Mrs. Suman Pinto	Dr. D. Prashanth Shetty Professor & Coordinator, Diagnostic Centre for Cytogenetics, KSHEMA	Mental health and psychosocial correlates among primary care givers of alcohol dependents	NU15PHDAH04 Rs. 15,000/- 21-08-2015
7	Rajesh P.S	Dr. Satheesh Rao, Prof. & Head, Dept. Of Psychiatry	A study on impact of psychosocial interventions on wellbeing and quality of life among schizophrenia patients	NU15PHDAH05 Rs. 15,000/- 21-08-2015
8	Sridhar C.H	Dr. Jayaram Shetty, Professor & Head, Dept. Of Radiation Oncology, KSHEMA	In vivo dosimetry in Radiation therapy as a patient specific QA and dose verification.	NU15PHDAH06 Rs. 30,000/- 21-08-2015
9	Haripriya S.	Prof. Dhanesh Kumar K.U Principal, NIPT	“Influence of cognitive status on the outcome of a multi-component exercise program in community dwelling elderly individuals”	NU15PHDAH07 Rs. 30,000/- 21-08-2015
10	Ms. Rashika M.R	Dr. D. Prashanth Shetty Professor & Coordinator, Diagnostic Centre for Cytogenetics, KSHEMA	Assessment of chromosomal breaks and DNA damage in pregnant bidi rollers in correlation with serial cotinine levels	NU15PHDAH04 Rs. 15,000/- 21-08-2015

List of Publications (2015 to 2016)

Community Services, Extension and Consultancy Services

KSHEMA is providing promotive, preventive and curative services in our Rural & Urban Health Centres for free of cost:

Namely:

Sasihithlu&Mukka RHTC: OPD Services, basic lab investigation for common diseases, Immunization and Health Education programs for communicable and non-communicable diseases. And referral services to KSHCH weekly once on Wednesday.

HejamadyKode RHC: OPD Services, basic lab investigation for common diseases, Health Education programs for communicable and non-communicable diseases.

Kadri UHTC : OPD Services, basic lab investigation for common diseases, and MCH services like family planning, ANC care, PNC care &Immunization. Health Education programs for communicable and non communicable diseases.

Bengre RHC : OPD Services, basic lab investigation for common diseases ,Health Education programs for communicable and non communicable diseases.

Farangepete RHC :OPD Services, Health Education programs for communicable and non communicable diseases.

Subramanya RHC: OPD Services, basic lab investigation for common diseases ,Health Education programs for communicable and non communicable diseases.

Shringeri Hospital: OPD Services, basic lab investigation for common diseases, and MCH services like family planning, ANC care, PNC care &LSCS Immunization. Health Education programs for communicable and non communicable diseases.

Other Activities conducted through satellite Centres once in a month are

1. School children Health check up
2. Anganwadi children health check up
3. Health check up of inmates of old age home & orphanage
4. Under Grama Kshema we have adopted 120 families and giving comprehensive health services.

Best Practices and Innovations

- BLS and ACLS course made mandatory for undergraduate and post-graduate students respectively
- Problem based learning (PBL) approach to Epidemiology
- Objective Structured Practical Examination (OSPE) in Departments of Physiology, Biochemistry and ENT
- Peer Assisted Check listed Training (PACT) for procedures in Department of physiology
- Grama Kshema – a program for MBBS students to provide early and continued exposure to community health issues
- KSHEMA Integrated Training and Education program

- KSHEMA InfoGateWay, an information management system for academic activities initiated.
- Abhyudaya - a student's mentoring scheme by the senior students
- NU e-learn – e-learning facility and online interactive sessions for MBBS students
- Integrated teaching – vertical and horizontal integrated teaching program by the departments for the benefit of the students.

A.B.SHETTY MEMORIAL INSTITUTE OF DENTAL SCIENCES

Dr. U.S. Krishna Nayak
Principal & Dean

ABOUT THE INSTITUTION

The A.B.Shetty Memorial Institute of Dental Sciences, named after the erstwhile Health Minister of the then Madras Presidency, Shri Attavar Balakrishna Shetty, the crowning glory of the Nitte education Trust, now the Nitte university, was founded by Justice K.S.Hegde in the year 1985 with a vision to impart quality education as an abiding commitment. Under the able guidance and leadership of his son Sri Vinaya Hegde, the present chancellor of the University, the institution and the university have scaled greater heights. The current Vice-chancellor of the University Prof(Dr.)S. Ramanand Shetty, an administrator with wide experience, being from the dental faculty, understands and recognizes the needs and requirements of the institution and together with the dynamic Prof (Dr) U. S. Krishna Nayak, who is the present Principal and Dean ensures the smooth functioning of the institute.

The Nitte University was bestowed with the deemed University Status in 2008, with the A.B. Shetty Dental College being the flag bearing Institution. The University has been graded 'A' by the NAAC and the MHRD, Government of India

The A.B.Shetty Memorial institute of Dental Sciences has spread its wings far and wide and is associated with various institutes of repute throughout the world. It is an affiliate of the Okayama University Dental School, Japan as well as being recognized by the Malaysian Dental Council and is an academic mentor to Oman Dental College, Muscat. In association with the Smile Train Organization, USA and Cleft Children International, Switzerland, the Institution has the unique distinction of being at the forefront of treatment and research into Clefts and Craniofacial anomalies in the country.

The college offers a much sought after certificate course in Oral Implantology in association with the Goethe University, Frankfurt, Germany, and a Fellowship program in Craniofacial Surgery in association with Cleft children International, Zurich. It also has an exchange program with Toulouse University, France.

It is a matter of great pride that the institution is ranked 3rd among the Private Dental colleges in the country and 8th among all the Dental colleges in the country by The Week Magazine-Hanza Research survey 2015. It has also been selected as the 'Most Proactive Dental College' in the country by 'Guident Dental Excellence Awards Committee and received the Heal Talk award for the 'Best College of the Year' 2015 for its achievement of academic excellence, imparting quality education and promoting overall development of its students.

The college has 116 teaching staff, of which 30 are Professors, 28 Readers, 33 lecturers and 20 tutors. The college annually admits 100 students for undergraduate studies and 49 students for post graduate studies. The Institute has

been offering Ph.D. programs in various specialties for over a decade, with 20 scholars currently pursuing their doctorates.

The best practices of the institution are the numerous social initiatives and camps conducted on a regular basis, counselling conducted by the combined effort of faculty at various levels and the rural outreach programs, through 17 centers, which provide quality treatment to the rural population free of cost. The free treatment provided at the institute is also unique in the country and hence results in more than sufficient patient numbers to meet the clinical requirements of the students.

The Institution has planned for expansion of all departments, and construction of a new College building in an area of 40,000 sq ft. The process of air conditioning of all the clinical areas and class rooms is in full flow, with work already completed in some departments. Each of the classrooms are fully equipped with state of the art Audio Visual Aids, and a new concept of internet based education – ‘The NU E Learn’, to ensure an enhanced teaching and learning experience.

Student Monitoring

The Institution has a unique model of individually monitoring the students right from their academic to extra-curricular activities. This model includes assigning 10 students to one faculty who will monitor the students from 1st BDS to Internship. A Senior faculty will be incharge to each class. They will monitor the mentor and the Students. After each sessional, individual counseling is conducted. Slow learners will be identified and will be given special attention by conducting special classes, assignments etc. Advanced learners will be encouraged to take the projects.

For the betterment of Students there is a grievance redressal cell, sexual harassment cell, anti-ragging cell, human forum. To enable the NRI students to enjoy a comfortable stay there is a separate NRI hostel and arrangements have been made to enable them to address the issues like visa or other documentation.

Career guidance for UG and PG students is provided.

Curriculum Development

Consequent to becoming the constituent college of Nitte University, the College has prepared its own curriculum based on the guidelines stipulated by the Statutory body, the DCI. The Board of Studies for Dentistry and the Academic Council of the University has approved the course curriculum for the UG, PG and PhD courses. College Staff are invited to participate as resource persons in statutory body meetings on curriculum design, syllabus up-gradation, course schedule and regulations conducted by DCI. To strengthen the curriculum integrates theory to practice by deputing students to Institutes of repute.

The Institution has benefited through interaction with and opinions from the experts and the stakeholders. Feedbacks from the stakeholders are considered for revision of curriculum.

Best Practices

RURAL & SOCIAL OUTREACH PROGRAMME FOR UNDERGRADUATE & POSTGRADUATE STUDENTS

Objective:

- To provide appropriate, accessible, affordable and acceptable comprehensive Oral health services to the rural areas and economically disadvantaged populations.
- To facilitate student clinical experience and build interpersonal skills between dentists, allied dental professionals and patients.

Context:

A student in college is exposed to theory as well as clinical situations within the four walls of the institution. However, the feasibility and practicability of education are real life circumstances which can be provided only when they are exposed to outreach programs like camps, rural satellite centres. Such an exposure bridges the gap between the discipline based educational environment at college and the independent environment of a dental practice. It also helps in developing practice management skills and interpersonal relationship between professional colleagues and patients.

Practice:

Every week undergraduate and postgraduate students on rotation are posted for the dental camps and rural satellite centres in batches of 10 -20 each. Conveyance is provided to them. At centres which are far off from the institution, accommodation for the students is provided too. Their attendance is monitored by the staff in-charge. The work done is checked regularly and monitored by the concerned department staff.

Evidence of success:

The patient output at the centers has increased as the patients get the benefit of quality specialty treatment free of cost. These well-equipped rural centers are available for further follow up of the patients. This has led to increased awareness among the rural population.

The students get additional clinical exposure, which enables them to complete their quota of clinical work in time, which is monitored by the staff at the camp/ centre and also is evaluated by the concerned department staff.

Difficulties encountered:

The travel time and problem of conveyance is a major hindrance. Shortage of man power and monetary funds to carry out this project smoothly.

STUDENT GUARDIAN INTERACTION AND COUNSELING

Objective:

Provides a monitoring system of the students towards academics, as well as overall personality development.

Context:

An opportunity is given to the student to interact with assigned staff for guardianship, monitoring and moulding them as professional leaders of tomorrow.

Practice:

Student monitoring is managed by 4 senior faculty, each staff is assigned 10 students. They interact with assigned students regularly, identify the slow learners interact with the subject teachers and guide the students. Student counseling is done regularly by concerned in-charge and over all progress is reviewed.

Evidence of success:

The performance in the final exam was significantly better compared to internal exams. Feedback from parents is encouraging.

Difficulties encountered:

Inability to communicate with few parents, because of lack of uniformity, in usage of electronic communication.

Innovations

- RFID (Radio frequency identification cards) have been introduced for patient data management.
- “Freedent” software upgraded with training provided to the non - teaching staff for maintaining better

patient records

- Strengthening of rural & social outreach programmes by undergraduate, postgraduate students & teaching staff.
- LKAID (The Laser Guided Aiming Device) patent was accepted by the government of India.
- Innovative programs such as “Ameloblastoma day” and “Oral Neoplasm learning day” were conducted by department of oral pathology.

Ameloblastoma day was conducted on 28th September 2015 by the Department of Oral Pathology & Microbiology, ABSMIDS. With an aim to encourage further interest & learning in the subject of Oral Pathology, an innovative practice of student interaction & assessment was planned by the faculty members of the Department of Oral Pathology for III BDS students. Interactive events comprising of case presentations, dumb charades, rapid fire round and histopathology drawing competition on the subject of ameloblastoma was conducted.

- Skill and Personality Development has been introduced in the curriculum for Ist BDS Students.

ACTIVE LEARNING USING AUDIO-VISUAL AIDS FOR B.D.S STUDENTS

Department of Pedodontics and Preventive Dentistry, ABSMIDS, Nitte University had organized a programme on active learning for the final year B.D.S students. The advance learners of the batch had to present their seminars using audio -visual aids. They were also asked to prepare patient education videopresentations and the better presenters were honoured. The programme was held on 9th May 2015, Vimshathi Bhavan, under the able guidance of Prof. (Dr) Amitha M. Hegde, H.O.D., Department of Pedodontics.

The 10 advance learners from final year students were shortlisted from the complete class for the presentation. Also the batch was divided into 8 groups and each group had to make short patient education video and had to present it.

The judges for the day were Dr. Reshma Pai from Department of Pedodontics, Yenepoya University, Deralakatte, Mangalore and Dr. Audrey D'Cruz from Department of Public Health Dentistry, ABSMIDS and Prof (Dr) Vabitha Shetty, Department of Pedodontics, ABSMIDS.

In the seminar presentation first prize was won by Anita D'Souza for topic 'Pulpectomy', followed by 2nd place won by Anju Sreedhar for topic 'Child Abuse and Neglect'.

In the Patient Education Video presentation, the topic of "Trauma to the teeth" and "Prevention of Dental Caries" bagged the first prize and "Management of dental caries and pulp infection" and "Maintainance of Oral Hygiene" won the second prize.

The winners were given cash prizes and gifts. The function was a grand success.

INFRASTRUCTURE

CBCT equipment was procured at a cost of 70 lakh and inaugurated on 2nd December 2015. Training for the faculty of Oral Medicine was provided by conducting 2 CDE programs; Evidence based imaging: CBCT Applications in Dentistry on 2/11/15 and "An insight into CBCT including its applications in various specialties" on 14/12/ 15.

In keeping with the technological advances the state of art **CONE BEAM CT** was inaugurated by Prof. (Dr.) M Shantharam Shetty, Pro-Chancellor, Nitte University in the august presence of Prof. (Dr.) S Ramananda Shetty ,

Vice-Chancellor, Nitte University, Prof. Dr. M S Moodithaya, Registrar, Nitte University, Dr.(Mrs.) Indrani Karunasagar, Director, R&D at the Department of Oral Medicine and Radiology. This state of art imaging facility is only available in Very few Centres across the Country.

Prof. (Dr.) Sridhar Shetty, Founder Dean, Prof.(Dr.) U S Krishna Nayak, Principal and Dean, Prof. (Dr.) Mithra N Hegde, Vice Principal and Prof. (Dr.) Subhas Babu, Head of the Oral Medicine Department were also present at the Occasion.

Cone-Beam Computed Tomography (CBCT) is the latest Dental Imaging Technique in the field of Dentistry that generates 3D images at a lower cost and absorbed dose compared with conventional Computed Tomography (CT). Today, much attention is focused on the clinical applications-Diagnosis, treatment and follow-up of CBCT in the various Dental disciplines. CBCT is a useful tool for imaging the craniofacial area that produces more realistic images that facilitate interpretation.

Mobile dental van for outreach programs procured at a cost of Rs10.83 lakhs in August 2015 and is being utilized extensively for outreach programs and commuting to the various satellite centers

The academic progress of the students is monitored by the committees formed for the purpose. The statement of attendance and performance of the students in the internal examinations are sent to parents periodically (After every internal assessment examination). SMS alerts are sent to parents on daily attendance.

The progress of the students is monitored at three levels

The class teacher on daily basis monitors the activities of the students.

The students whose performance or attendance is poor are counseled by the group counselor along with the class teacher.

Those students who find it difficult to cope with academic work or have disciplinary problems are counseled by the principal.

- Level 1. Class teacher monitors attendance, performance in tests and examinations
- Level 2. The counselor talks to the student under him about all the areas of difficulty and tries to provide solutions to their problems
- Level 3. Counseling by the principal, in some cases the parents are called to discuss the issues pertaining to their ward

Workshops/ Seminars Conducted:

S. No	Date	Title	Resource Persons	Sponsored by
1.	26.11.2015	Role of CADD in Drug Design and Development	1. Dr. Evans Cutinho, Professor and Head, Bombay College of Pharmacy, Mumbai 2. Dr. Mahesh B Palkar, Associate Professor, Hubli	Nitte University, Mangalore
2.	04.12.2015	Nanotechnology: A Multidisciplinary Approach to Research	1. Dr. Dattatri K Nagesha, Head, Faculty of Life Sciences, JSS University, Mysore 2. Dr. Asha Srinivasan, Faculty of Life Sciences, JSS University, Mysore 3. Dr. Mahaveer Kurkuri, Associate Professor and Group Leader, Centre for Nano and Material Sciences, Jain University, Kanakapura	Nitte University, Mangalore and Alumni Students
3.	07.12.2015	Challenges and Opportunities in Pharmacy Practice	1. Dr. KG Revikumar (Director and Principal Kerala Institute for Drug Studies, Kerala 2. Dr. Veena R (Senior Lecturer, University College of Pharmacy, M G University, Kottayam, Kerala 3. Dr. Sampath Kumar, Associate Professor, KSHEMA, Nitte University Mangalore	Nitte University Mangalore
4.	22.01.2016	Animals in Biomedical Research: The Changing Perspectives	1. Dr. Ashok Shenoy K, Professor & Head, Dept. of Pharmacology, KMC, Mangalore 2. Dr. N A Madhyastha, Retd., Professor & Environmentalist and Member, Karnataka State Wildlife Board, Udupi & Mangalore 3. Dr. Shreedhar Pai, Prof. & Head, Dept. of Pharmacology, Manipal College of Pharmaceutical Sciences, Manipal 4. Dr. Vasanth Kumar Shetty, Veterinarian Regional Research Officer, Addl. & IC, Mangalore 5. Prof. Krishna Bhat, Biostatistician, K S Hegde Medical Academy, Mangalore	ICMR, New Delhi and Nitte University

Participation in Conferences /Seminars / Workshops:

Sl. No.	Name of the faculty	Conferences / Workshops Attended	Date of Seminar / Workshop
1.	Mr. Javedh Shareef	6 th World Congress of Diabetes India held at Hotel ITC Grand Chola Convention Centre, Chennai	9-12 April 2015
2.	Dr. R. Narayana Charyulu Dr. D. S. Puranik	Current Regulatory Requirements for Members of Institutional Ethics Committee held at Father Muller Medical College Mangalore organized by Clinical Development Services Agency (CDSA), THSTI, DBT, Govt. Of India	19 & 20 May 2015
3.	Mrs. Neethu Fathima Umar	CME on Vector Borne Diseases held at K S Hegde Medical Academy, Deralakatte, Mangalore	25 July 2015
4.	Mrs. Neethu Fathima Umar	CME on “P2P: Protocol to Publishing in Medical Sciences” held at Kasturba Medical College, Mangalore	4-5 July 2015
5.	Dr. C. S. Shastry	Leave Trading System – A Tool to Learn with Fun held at Justice K S Hegde Institute of Management, Nitte	4 Sept. 2015
6.	Dr. Ronald Fernandes	Leave Trading System – A Tool to Learn with Fun held at Justice K S Hegde Institute of Management, Nitte	4 Sept. 2015
7.	Dr. R Narayana Charyulu	National Workshop on Credit Based Education System and Continuous Assessment in Health Science held at Sri Devaraj Urs Academy of Higher Education and Research, Kolar	9 Sept. 2015
8.	Mr. M Vijay Kumar	National Conference on New Approaches and Concepts in Microbial Biotechnology held at Maharani’s Science College for Women, Bengaluru	29-30 Sept. 2015
9.	Dr. B C Revanasiddappa	National Conference on New Approaches and Concepts in Microbial Biotechnology held at Maharani’s Science College for Women, Bengaluru	29-30 Sept. 2015
10.	Dr. B C Revanasiddappa	National workshop on Clinical Research Methodology organized by K S Hegde Medical Academy, Deralakatte	29-31 Oct. 2015
11.	Dr. Divya Jyothi	5 th PESCP International Conference held at PES College of Pharmacy, Bangalore	17-18 Oct. 2015
12.	Dr. Jainey P James	-do-	17-18 Oct. 2015
13.	Mrs. Sneh Priya	-do-	17-18 Oct. 2015

15.	Mr. Bharath Raj K C	-do-	17-18 Oct. 2015
16.	Mr. M Vijay Kumar	-do-	17-18 Oct. 2015
17.	Dr. Murali Badanthadka	Transactional Research in Drug Discovery and Diagnostics held at K B Institute of Pharmaceutical Education and Research, Gandhinagar, Gujarat	22 nd Oct. 2015
18.	Mrs. Neethu Fathima Umar	National Workshop on Clinical Research Methodology held at K S Hegde Medical Academy, Deralakatte	29-31 Oct. 2015
19.	Mr. Chandrashekar D	Stress Management Techniques for library professionals with special reference to yoga held at Govt. First Grade College, Bettampady	30 th Nov. 2015

20.	Dr. Prasanna Shama Khandige	Regional workshop on Research Methodology, Biostatistics, Communicating Science and Research Ethics held at Adichunchanagiri College of Pharmacy, BG Nagara	15 th Dec. 2015
21.	Mrs. Neethu Fathima Umar	National workshop on clinical research methodology	29- 31 Oct 2015.
22.	Mrs. Neethu Fathima Umar	International conference on evolving role of clinical pharmacist in multidisciplinary healthcare settings	8-9 Jan 2016.
23.	Dr. Prerana Shetty	New Chemical Entities and Biosimilars: Strategies for Design and Development held at Continuing Pharmacy Education Council (CPEC), Manipal College of Pharmaceutical Sciences, Manipal sponsored by AICTE under Quality Improvement Program	18-31 January 2016
24.	Mr. M Vijay Kumar	-do-	18-31 January 2016
25.	Dr. Nimmy Chacko	-do-	18-31 January 2016
26.	Mr. Chandrashekar D	2 nd National Conference on Management of Modern Libraries (NACML - 2016 on the theme Role of New Information Professional in Digital Age organized by Search – The Health Science Library and Dept. Of Library & Information Science, Manipal University, Manipal	19-20 February 2016
27.	Mr. M Vijay Kumar	National Seminar & Workshop on Functional Nanomaterials for Energy, Environment and Health held at Mangalore University, Mangalagangothri, Konaje	21-22 March 2016
28.	Dr. B C Revanasiddappa	National Seminar & Workshop on Functional Nanomaterials for Energy, Environment and Health held at Mangalore University, Mangalagangothri, Konaje	21-22 March 2016

9.	Mr. Bharath Raj K C	5 th PESCP International Conference held at PES College of Pharmacy, Bangalore	Evaluation of antioxidant activity of leaves of Sapindus Trifoliatus linn	17-18 Oct. 2015
10.	Dr. Murali Badanthadka	Transactional Research in Drug Discovery and Diagnostics held at K B Institute of Pharmaceutical Education and Research, Gandhinagar, Gujarat	Multiple targets for the treatment of Neuropathic pain: What to choose?	22 nd Oct. 2015
11.	Mrs. Neethu Fathima Umar	National work shop on clinical research methodology	Incidence, severity and economic impact of adverse drug reactions at a tertiary care hospital	29- 31 Oct 2015.
12.	Dr. Jainey P James	National Seminar on Novel Pharmaceutical Technologies: Challenges and Opportunities organised by IAPST held at Manipal College of Pharmacy, Manipal	Cytotoxicity Studies of some Synthesized Novel Cyanopyridines	15 Nov. 2015
13.	Mrs. Sneh Priya	National Seminar on Novel Pharmaceutical Technologies: Challenges and Opportunities organized by IAPST held at Manipal College of Pharmacy, Manipal	A study of ropinirole hydrochloride nanoemulsion for delivery into the brain through intranasal route	15 Nov. 2015
14.	Mrs. Neethu Fathima Umar	International conference on evolving role of clinical pharmacist in multidisciplinary healthcare settings	Pattern of Adverse drug reactions and its economic impact among the inpatients of a Mangalore based hospital.	8-9 Jan 2016.

INVITED LECTURES FROM FACULTY MEMBERS:

Sl. No.	Name of the faculty	Program	Title of Lecture	Date
1.	Dr. Marina Koland	Fourth Annual Symposium of Society of Biological Chemistry organized by Nitte University Centre for Science Education and Research (NUCSE), Mangalore	Nano particles as drug carries for controlled release and targeting	14.11.2015
2.	Dr. K Ishwar Bhat	Workshop organized by Delhi Public School, Bokaro, Ranchi	Thermodynamic properties and chemical reactions	28.11.2015
3.	Dr. Murali Badanthadka	International Symposium on Translational Research in Drug Discovery and Diagnostics at K B Institute of Pharmaceutical Education and Research, Gujarat	Multiple Targets to treat Neuropathic pain: What to Choose?	22.10.2015

Guest Lecturers Conducted:

Sl.No	Speaker	Title	Date
1.	Dr. M Chandrasekhar University of Findlay, USA	Interactive session on 'Carrier Opportunities in Pharmacy Practice'	15.07.2015
2.	Dr. T M Pramod Kumar Professor and Head, Dept. of Pharmaceutics, JSS College of Pharmacy Mysore	Career Opportunities in Quality Assurance and Regulatory Affairs and Mind Mapping – A tool for effective learning	26.08.2015
3.	Dr. Prakash V Diwan Former President Indian Pharmacological Society and Former Founder Director NIPER, Hyderabad & Director, School of Pharmacy, Hyderabad	Overview of good laboratory practices How to achieve the professional edge !!	22.08.2015
4.	Mrs. Meenakshi Head of the Department Medical Records Department Justice K S Hegde Charitable Hospital, Deralakatte	Methodology and Practices adopted in the use of International classification of Diseases	13.11.2015
5.	Mr. Devaraj Shetty Quality DGM Reliance Life Sciences Mumbai	The Computer System Validation and 21 CFR Part II	24.11.2015
6.	Mr. V.G.S Sharma Co-Founder Flair Labs, Surat, Gujarat	Regulatory Toxicology	25.11.2015
7.	Dr. Tanuj Kanchan Associate Professor KMC, Manipal	Thomson Reuters Citation and Plagiarism	09.03.2016
8.	Ms. Neerja Kumar Pharmacy Educator and Consultant Alberta, Canada	Community Pharmacy Practice in Canada	10.03.2016

Funded Research Projects (Ongoing- sanctioned earlier)

Sl. No.	Title of the Project	Principal Investigator	Co-investigator	Funding Agency	Amount (Rs)
1.	Pharmacological evaluation of Bio-active molecules from the plants mentioned in Indian system of medicine for the treatment of cognitive disorders	Dr. C. S. Shastry	-	K-FIST	2000000
2.	Radioprotective effect of Tanacetum Parthenium (Feverfew) plant extract with the synthetic Parthenolide on the organs of Swiss Albino Mice	Dr. D. Prashanth Shetty Professor NGSMIPS	-	Govt. of India, BRNS, New Delhi	1279000
3.	A Study on Antivenin Property of Root Extract of Coix Lachrymajobi for the treatment of Indian poisonous snake venoms	Dr. Vaman Rao Professor and Head, Dept. of Biotechnology NMAMIT,Nitte	Dr. K. Ishwar Bhat Professor and Head Dept. of Pharm. Chemistry	Nitte University	115000
4.	Investigation of trans buccal permeability of acyclovir from solid lipid nanoparticles via mucoadhesive ?Ils	Mrs. Marina Koland Professor Dept. of Pharmaceutics	-	Nitte University	103000
5.	Topical Delivery of Synthesized Pyrazoline Nanoparticles for Promoting Antimicrobial Effect	Ms. Jainey P James	-	Nitte University	44000

Newly sanctioned Funded Research Project:

Sl. No.	Title of the Project	Principal Investigator	Funding Agency	Amount (Rs)
1.	Investigation of intra nasally administered curcumin loaded chitosan nanoparticles for brain targeting in alzheimer's disease	Dr. Marina Koland	Nitte University	190000
2.	Phytochemical and in vitro pharmacological evaluation of utricularia reticulata	Dr. Jennifer Fernandes	Nitte University	119699
3.	Screening of anticholinesterase activity of benincasa hispida thumb.cogn.	Dr. Atanu Bhattacharjee	Nitte University	12000
4.	Synthesis and pharmacological evaluation of novel pyrazoline derivatives	Dr. B C Revanasiddappa	Nitte University	300000

Ph.D. Projects On-going:

Sl. No	Name of the Scholar	Name of the Guide	University	Date of Registration	Topic
Department of Pharmaceutical Chemistry:					
1.	Mr. Rajesh K. S.	Dr. K. Ishwar Bhat	Nitte University	03.08.2011	A study of anti venom property of root extract of coix lachrymajobi for the treatment of Indian poisonous snake venoms.
2.	Mr. Sarif Niroush Konari	Dr. Jane T. Jacob	Nitte University	04.08.2011	Development and validation of analytical methods for the estimation of newer drugs in pure and pharmaceutical dosage form
3.	Mr. Manjunatha S. Katagi	Dr. Jennifer Fernandes	Nitte University	08.08.2011	Synthesis and evaluation of acetylcholinesterase
4.	Ms. Srilakshmi D.	Dr. Jane T. Jacob	Nitte University	18.08.2012	Validation of analytical methods of some drugs in bulk and dosage forms
5.	Mr. M Vijay Kumar	Dr. B.C. Revanasiddappa	Nitte University	14.07.2014	Synthesis and pharmacological evaluation of some novel Pyrazolone derivatives

Department of Pharmaceutics:					
6.	Mr. G. S. Shantha Kumar	Dr. R.Narayana Charyulu	Nitte University	29.07.2010	Design and development of Buccoadhesive Compacts of selective anti hypertensive agents
7.	Mr. Shaiju S. Dharan	Dr. R.Narayana Charyulu	Nitte University	28.07.2010	Development of ?oating drug delivery systems: Effect of formulation variables
8.	Mr. Srinivasa Sastry D.	Dr. R.Narayana Charyulu	Nitte University	04.08.2011	An approach for design and development of orodispersable tablets of antiulcer agents
9.	Mr. Raghavendra K.	Dr. Marina Koland	Nitte University	06.08.2011	An investigation of formulation and evaluation of specialized chronotherapeutical drug delivery system of losartan potassium and hydrochlorothiazide for the treatment of hypertension
10.	Mrs. Nirmala P.	Dr. Marina Koland	Nitte University	08.08.2011	Development of oral multi-particulate drug delivery system for BCS class I and II drugs.
11.	Ms. Sneha Priya	Dr. Marina Koland	Nitte University	16.08.2012	Nanoparticulate drug delivery system of some CNS acting drugs for brain targeting through intranasal route
12.	Mr. Shanon Ben Mascarenhas	Dr. Marina Koland	Nitte University	25.07.2015	Development and investigation of polysaccharide coated liposomes via gastroprotective particulate carrier for colon delivery of anti-inflammatory drugs
13.	Ms. Avril Candida Mathias	Dr. R. Narayana Charyulu	Nitte University	25.07.2015	Development and Characterisation of Nano Lipid Vesicles for the intra-articular delivery of drugs used for Rheumatoid Arthritis
Department of Pharmacology:					
14.	Mr. Aswathanarayan a B. J.	Dr. C. S. Shastry	Nitte University	18.08.2012	Evaluation of radio protective activity of some medicinal plants having phytochemicals containing sulphur
Department of Pharmacy Practice:					
15.	Mr. Juno J. Joel	Dr. C. S. Shastry	Nitte University May 2016	06.08.2011	A critical study on drug utilization and evaluation of patients with schizophrenia in a tertiary care hospital of Dakshina Kannada district
16.	Mr. Javedh Shareef	Dr. Jennifer Fernandes	Nitte University	16.08.2012	Impact of clinical pharmacist interventions in diabetes disease management program in a tertiary care teaching hospital
17.	Mrs. Neethu Fathima Umar	Dr. C. S. Shastry	Nitte University	24.07.2014	A critical evaluation of adverse drug reaction monitoring system in a tertiary care hospital and assessment of its impact on Pharmacotherapy

Ph.D. Awarded:

Sl. No.	Name of the Scholar	Name of the Guide	University / month & Year awarded	Date of Registration	Topic
1.	Mr. Sandeep Singh	Dr. Marina Koland	Nitte University / Feb. 2016	08.08.2011	Design and investigation of drug delivery system for the management of blood pressure and blood glucose level
2.	Mr. Abhishek Kumar	Dr. Jennifer Fernandes	Nitte University / Jan. 2016	03.08.2011	Synthesis and biological evaluation of some novel derivatives of n-substituted 2-quinolones

3.	Mr. Pankaj Kumar	Dr. Jennifer Fernandes	Nitte University / Nov. 2015	03.08.2011	Synthesis and biological evaluation of novel Oxazolidinones having Benzo Thiazinen Moieties
4.	Ms. Jainey P. James	Dr. K. Ishwar Bhat	Nitte University / Sept. 2015	06.08.2011	Synthesis and screening of some biologically active 7, 6, 5, 4, 3, 2 membered novel heterocyclic compounds
5.	Mr. Amit B. Patil	Dr. R.Narayana Charyulu	Nitte University / Aug. 2015	08.08.2011	Embodiment of fast dissolving orodispersible formulations of selective antihypertensive drugs and their characterisation
6.	Mrs. Divya Jyothi	Dr. Marina Koland	Nitte University Aug. 2015	06.08.2011	Investigation of formulations containing extracts of seeds of trigonella foenum graecum for oral anti-diabetic therapy and topical anti-inflammatory activity.
7.	Mr. Atanu Bhattacharjee	Dr. C. S. Shastry	Nitte University Aug. 2015	06.08.2011	Phytochemical and neuropharmacological evaluation of some traditional Indian medicinal plants from Western Ghat region of South Karnataka.

BEST PRACTICES AND INNOVATIONS**Best Practices****Environmental**

- Building designed to permit maximum light and air – reducing the energy consumption
- Tobacco and plastic free campus
- Recharging the bore wells during monsoon
- Forestation – green campus

Academic

- Soft skill development programme
- Research funding for projects by UG and PG students with objective of exposing the students research methods
- Quality audit of academic and research activities
- College news letters, annual calendars, teachers' diary
- Research collaboration with academic/research institutions
- Computer simulated animal experimentation
- Interactive seminars by the students, Journal club

Administrative

- Computerization of student data, examination work, inventory management and accounts
- CAS based on performance appraisal

Innovative practices

- Developing the state of the art animal house to promote institute- industry collaboration, alternate source of revenue
- Nurturing of young pre – college students to create awareness about the profession of Pharmacy
- Quality checking of the drugs in hospital
- Innovative idea promotion through MSME

INFRASTRUCTURE

New block of NGSM Institute of Pharmaceutical Sciences which houses Drug Regulatory Affairs department, instrumentation centre, CADD lab, Nano Science lab and NUCARE laboratory was established. With this an additional space of about 20000 sq. ft. was added which is used for post graduate and doctoral research studies.

Equipments:

The laboratories were equipped with instruments and equipment of about 33.00 lakhs.

Some of the Instruments added during year 2015-16 are:

- HPLC System with Accessories
- Heating Mantle-1000ml
- Heating Mantle-500ml
- Magnetic Stirrer
- Conductivity Meter
- Digital Colorimeter 8 Filters
- Electronic Weighing Balance 0.001gm
- Medical Microscope
- Digital PH Meter
- Vortex Mixer
- Water Bath Rectangular
- Electronic Balance-0.01gm
- Centrifuge Machine
- Swing Out Head with Glass Tube
- Lecturing System
- Water Bath Rectangular
- Oil Free Portable Vacuum Pump
- Electronic Balance-0.001gm
- Heating Mantle
- Hot Air Oven

SPORTS AND CULTURAL ACTIVITIES**Sports Activities:**

NGSM Institute of Pharmaceutical Sciences Sports meet was held on 14th November 2015 at Mangalore University, Konaje, and various in-house sports and games competitions i.e. cricket, football, volleyball, throw ball, cricket (women), badminton (women), chess, carom, table tennis, badminton (men) were held from November 2015 to February 2016 for the year 2015-16.

Mr. Abooboker Yasir of III B.Pharm and Ms. Thrpthi Shetty of I M.Pharm emerged as overall individual champions in boys and girls section respectively.

The **3rd inter-collegiate annual athletic meet of Nitte University** was held on 13th February 2016 at Mangalore University grounds. Our students participated in the competition and bagged following prizes:

- ❖ 1st Place in March Fast
- ❖ Overall Team Championship (Women)
- ❖ Overall Championship (college-wise)
- ❖ First Place in 4 x 100 Mts. Relay (Women)
- ❖ Second Place in 4 x 100 Mts. Relay (Men)

THE INDIVIDUAL PRIZES ARE:

1. Mr. Aboobockar Yasir, III B.Pharm 3rd place in 100 mtrs, 2nd place in 200 mtrs, 2nd place in 400 mtrs, 2nd place in Long Jump, 2nd place in 4X100 mtrs Relay
2. Ms. Thrpthi Shetty, I M.Pharm, 1st place in 4X100 mtrs Relay, 2nd place in 1500 mtrs, 2nd place in 800 mtrs.
3. Ms. Lija George, IV Pharm D, 1st place in Long Jump, 1st place in 4X100 mtrs Relay
4. Mr. Anil Kumar C, I M.Pharm, 2nd place in 1500 mtr, 2nd place in 800 mtr
5. Ms. Nithya M George, II B.Pharm, 1st place in 4X100 mtr Relay, 2nd place in 100 mtr
6. Ms. Preetha, I B.Pharm, 1st place in 4X100 mtr Relay, 2nd place in 200 mtr
7. Ms. Deenu Elsa V, IV Pharm D, 1st place Triple Jump
8. Ms. Achala Bhat, I B.Pharm, 1st Place in High Jump
9. Mr. Muhammed Ameen, III B.Pharm, 2nd place in Javelin Throw
10. Mr. Sharook G P, III B.Pharm, 2nd place in 4X100 mtr Relay
11. Mr. Ibrahim Shanfar, II Pharm.D, 2nd place in 4X100 mtr Relay
12. Mr. Dhidhin Raju, I M.Pharm, 2nd place in 4X100 mtr Relay
13. Ms. Shwetha S Shetty, I M.Pharm, 3rd place in Shot put,
14. Ms. Samruddhi C Shetty, II B.Pharm, 3rd place in Triple Jump
15. Ms. Brynish Riyana D'Souza, II B.Pharm, 3rd place in Discuss Throw

Nitte University Inter Collegiate Throw ball Tournament for women was held on 22nd and 23rd September 2015 at ABSMIDS, Deralakatte and our students bagged **First place** (winners).

Our boys and girls team participated in “Nitte Accolades 2016” from 8th to 11th March 2016 held at KSHEMA, Deralakatte. Girls team won runners trophy in both volleyball and throw ball.

COLLABORATION WITH CENTRES OF EXCELLENCE IN INDIA AND ABROAD

Institute-Industry Interaction Cell

The industry institute collaboration and placement cell of the institute visited several pharma companies in Goa, Mysore, Bangalore and Hyderabad. The main aim of the cell is to boost the placement of our students in pharmaceutical companies. The pharma companies with which the institution has interacted and have expressed their willingness to absorb our students as trainees or employees are:

Sl. No.	Name of the company	Date of visit
1.	Biocon Ltd., Bangalore	13.04.2015
2.	Natural Remedies Ltd, Bangalore	13.04.2015
3.	Bayir Group, Bangalore	13.04.2015
4.	Copernicium Pharmaceuticals Pvt., Ltd., Bangalore	13.04.2015
5.	Advinus Therapeutics Ltd, Bangalore	13.04.2015
6.	Bioplus Life Sciences Pvt. Ltd, Bangalore	28.04.2015

Other areas where industries would extend support are:

- Industry training to M.Pharm students.
- Willingness to participate in the college advisory board for suggestions in the areas of syllabus modification process, soft skills development etc.
- Share expertise by offering guest lectures, workshops to faculty and students with an objective of giving exposure to the recent advances in the pharmaceutical industry.
- Exploring possibilities for MoU between institute and industries.

Placement Status 2015:

Course	No. of candidates	Higher studies	Employed	Others
B.Pharm.	76	42	16	18

Course	No. of candidates	Employed	Seeking job	Others
M.Pharm.	32	27	3	2

ANY OTHER MATTER

Future plans

Establishment of:

- ☐ Computer Aided Drug Design laboratory (CADD)
- ☐ Nanotechnology lab
- ☐ Pharmacovigilance cell
- ☐ Patient counseling centre
- ☐ Psychopharmacology lab
- ☐ Industry – Institute Collaboration cell

SWOC Analysis

Strengths

- Good infrastructure, interdisciplinary collaboration
- Support from the University

Weakness

- Instrumentation for higher research
- Limited exposure to research environment

Opportunities

- Expanding Pharma industry, research
- Need for pharma professionals in India and abroad

Challenges

- To improve the standing of institution by quality research and academic excellence
- Providing the environment required for the above

NITTE USHA INSTITUTE OF NURSING SCIENCES

Dr. Fatima D'silva
Principal

About the Institution

NUINS, a leading and well known academic institute has completed twenty five years of its existence, a major milestone in the life of any educational institute. Since its establishment in the year 1992, this institute has earned appreciation for providing value based education and imparting ideals of academic excellence, discipline leading to the development of integrated personalities.

The major features of the college include :-

- Soft Skill Training to develop effective communication and job skills.
- Add on courses in Renal and Critical Care Nursing
- Certificate course in Dialysis Nursing
- Extensive community outreach activities to instil social responsibility and nurture students as sensitive human beings with strong values.
- Peer Mentoring Program to encourage slow learners and monitor their progress through involvement of advanced learners as mentors.
- Teacher guardian system to strengthen teacher student relationship with regular counselling sessions on academics and personal concerns.
- Interdisciplinary collaborations with department of Anaesthesia, Dentistry, Nephro-urology, Ophthalmology etc.
- Placement programs
- Innovative pedagogical methods to promote active teaching learning process.

Faculty Strength: The institute has an excellent team of competent and qualified teachers consisting of 2 faculty with Ph.D, 4 Professors, 2 Associate Professors, 4 Asst. Professors, 12 Lecturers, 10 Asst. Lecturers and 18 Clinical Demonstrators. The institute believes in quality education and maintaining professional standards which is highly reflected by the well-established campus and prevailing discipline in the campus. It also offers short term skill based hands on training program in Renal and Critical Care Nursing for our graduate/diploma nurses to enhance proficiency in providing quality nursing care to our stakeholders.

Student Monitoring

A very active Teacher guardian system is existing in the college wherein a ratio of 1:15 between teacher and students is maintained. Any academic, personal issues of students are addressed through this system. A full time

counsellor is also available at KSHEMA hospital. Monitoring of online student attendance and progress and timely reporting to parents through Chaithanya Software. Weaker students are identified and provided remedial coaching and improvement tests. Advanced learners are identified as mentors in the co-operative learning strategy adopted by the institute.

Board of Studies and Curriculum Development

Four meetings have been conducted in the Board of Study of the institute. Revision of Biochemistry syllabus, curricular changes in Mental Health nursing, incorporating INC resolutions in regard to Shifting of Midwifery & OBG to IV year and Research to III year, reverting back to previous placement of subjects as per INC, Incorporating UGC syllabus for environmental studies at UG level, Change of Eligibility criteria and nomenclature for Post Graduate diploma in Dialysis Nursing, Starting of Add on course on ELNEC – Palliative care, amendment of syllabus of add on course in renal and critical care nursing, inclusion of faculty name in the approved guide list and approval of add on course in Geriatric mental health were the major changes in the BOS meetings.

Best Practices and Innovations

Best Practices :

School adoption

- Life Skill Training Program
- Add on course in Palliative care
- Initiation of Child birth education centre
- Campus placement from reputed organizations
- Herbal Garden initiative
- Swatchh Bharath Abhiyan
- Infection Control audit of parent hospital by NABH Safe I from qualified faculty
- Residential internship clinical exposure at Rural Hospital – Gajria Hospital at Nitte

Innovations :

- Established quality circles to monitor and sustain academic standards and excellence.
- Students and faculty are involved in research related activities.
- Outcome oriented extension activities in the community through Role plays, street plays, health awareness programmes, field visits to old age home, HIV homes etc.
- Participatory teaching learning methods – Symposium, model presentation, video based teaching, need based projects, Puppet show.

Other Innovative teaching learning methods :

- De-briefing
- Instrument exhibition
- Problem based learning
- Symptom analysis
- Quiz
- Drug exhibition

- OSPE
- Skill lab training – ACLS
- Exhibition on critical care procedures
- BLS Skill training programme
- Modular teaching
- Journal club
- Panel Discussion
- Symposium
- Video assisted teaching module
- OSCE
- Integrated teaching programme

Human Resource :

Teaching Staff	52
Non Teaching Staff	21

Infrastructure

NUINS has well equipped labs and classrooms to promote teaching learning activities :

- OHP's are available in all the classrooms with 2 roof mounted LCDs and 3 portable LCDs
- Basic and advanced simulation lab with manikins and equipments for better 'hands-on' practice. For eg. CPR manikins, ECG machine, labor simulator, neonatal resuscitation manikin etc.
- Availability of 5 departmental library
- Computer lab with internet connection with free access to students.
- A well equipped library with latest updates of books, journals and online materials.

Budget

Budget approval for the year 2015-16 for Building maintenance is Rs. 2 lacs, library 5 lacs, for campus maintenance Rs.1 lac, vehicle maintenance Rs.45 lacs, Research & Conference Rs.5 lacs.

Library

- Library Staff : 1. Mrs. Jahnavi, Librarian
2. Mrs. Vijaya D., Asst. Librarian
3. Miss. Deepa Shetty, Library Asst.

NITTE INSTITUTE OF PHYSIOTHERAPY

Dr. Dhanesh Kumar K.U
Principal

About the Institution:

Nitte institute of Physiotherapy is a unique pedagogical educational institute. It is built on a distinctive health care environment and offers a patient centred collaborative learning experience. NIPT's educational programs are dynamic, subjected to continuous scrutiny and revision. Despite this vital, necessary process of ongoing change, the overriding aim of physiotherapy education at NIPT remains constant, i.e. to offer future physiotherapists a superior and supportive environment for learning the art and the science of physiotherapy. One of the NIPT's identified goals is to "vigorously promote the education of tomorrow's health care leaders and application of new knowledge in support of our Vision and Mission". NIPT was established in 1997. The institute is now a constituent college of the Nitte University, recognized by the Government of India and the Indian Association of Physiotherapists (IAP)

ACADEMIC:

- PROGRAMS AND COURSES : 4 and half year Bachelor in Physiotherapy (B.P.T.),
- 2 years Masters In Physiotherapy (MPT),
- PhD
- INTAKE AND ADMISSIONS FOR THE YEAR 2015-16:
 - BPT: 60
 - MPT:20

STUDENT MONITORING:

Students monitoring cell functions through the faculties who are assigned as student monitors, where they basically identify the slow learners and motivates them to overcome their academic/ examination fear and prepares them mentally for regular program. Students are also monitored by monthly unit tests, yearly three internal examinations, one model examination before final university exams. Weak students are enrolled into remedial coaching for improvement.

The fundamental objectives of remedial coaching for students comprises of the following :

- To identify the slow learners
- Personal attention for knowledge improvisation of academically weak students
- Emphasis on difficult subjects
- Training for enhancement of overall scores in exams
- To improve their academic performance and self development

- Strengthening their knowledge, skills and attitudes in such subjects, where Quantitative and qualitative techniques and practical clinical activities are involved so that proper guidance and training provided under the programme may enable the students to come up to the level necessary for pursuing higher studies efficiently. The Coordinator of the programme will supervise the work every month. Separate registers may be maintained for different subjects. At the end of each month the Coordinator will submit to the Principal, an appraisal report, indicating the performance of each candidate.

The appraisal report includes:

- The duration for which the coaching was organized, classes / period and the number of candidates who actually participated in the programme.
- The subjects in whom they were tutored, names of teachers and their subject discipline.
- The number of the candidates who actually appeared in the examination.
- The number of the successful candidates in each paper.
- Problems faced by the College in the implementation of the remedial coaching program.
- Overall comments of the Coordinator.

The plan of action includes the following

- Personal attention by the assigned mentors
 - Tests on regular intervals to assess improvement in lacking subjects
 - Assignments on a weekly basis to be submitted to the mentors
 - Academic schedule of tests that are planned to be conducted are allotted prior to the students
 - Personal checks on students' progress reports are maintained by the respective mentors.
- A pre prepared schedule of the monthly plan is allotted to all the students of the remedial coaching at the beginning of every month. The mentor of the respective student of the remedial coaching has separate counseling sessions for the student whom they are supervising. The student's personal issues as well as other matters which hinders the student from concentrating on studies are taken into consideration while counseling them. Guidelines are provided to the students about the method of writing answers systematically in exams. After correcting the monthly exam papers feedback to students about their performance is given. Positive feedback if improvement is observed is given to the students in order to encourage and motivate them to perform better as well as focus is also made on the lacunas and measures to improve them are suggested by the mentors of the remedial coaching.
 - The remedial coaching committee also maintains a good rapport with the parents regarding their child's performance in all the academic tests conducted every month. The remedial coaching committee also sends a official letter to the parents regarding information of their child's absenteeism if present consecutively at a regular basis. The process consists of a preliminary test which is conducted initially to assess their baseline knowledge levels and after a periodic session of regular coaching retest is conducted to analyze the improvement of the students. A considerable and marked improvement has been noticed in their retest scores performance. Improvements have also been observed in regards to discipline and regularity in attending remedial coaching exams as well as classes. Assignments allotted to students were also submitted on time to the respective mentors. A positive attitude and increased interest in students was noticed in students after a regular basis training sessions and counseling by the mentors of the remedial coaching. Through this coaching, personal attention given by the mentors has improved the subject knowledge of the students and also helped them to cope up better with their studies. As a result of this, an evident improvement was

observed in the sessional exams conducted by the college. Thus an overall transformation was observed not only in academics but also in their attitude, discipline and self development of the students of the remedial coaching.

COMMUNITY SERVICES, EXTENSION AND CONSULTANCY SERVICES:

Nitte institute of physiotherapy extends community services at special school, Kapikad, Abhaya Ashraya old age home Assaigoli and Sneha Sadan (HIV centre).

Abhaya Ashraya is an old age home located in Assaigoli wherein physiotherapy services are provided twice in a week. It has a total of 80 inmates which includes elderly and children. Aerobic exercises sessions are conducted to all the old age inmates for an hour along with recreational games and activities. We also identify the elderly inmates with musculoskeletal and neurological problems and required physiotherapy treatment has been administered to them.

The special school in Kapikad is also provided with physiotherapy services twice in a week .It is a center for paediatric children with disabilities. An in depth evaluation of the paediatric patient is carried out by the physiotherapist and the appropriate physiotherapy treatment is provided. Community based home based rehabilitation advice is also given to the parents of the children with disabilities to ensure that the child is provided with exercises

at home. Follow up is done at regular intervals for each child. Monitoring is done through phone calls by the special school teachers.

Sneha Sadan is an HIV center where visits are carried out twice a month by the staffs and students of Nitte institute of physiotherapy. A HIV health survey is conducted on every visit. There are 35 patients in the community center and physiotherapy sessions are carried out by dividing them into two groups based on their age (group 1: 5-10 years and group 2 :11-15 years).Rehabilitation is planned based on their fitness levels. Any kind of musculoskeletal injury is also addressed by an appropriate rehabilitation programme.

BEST PRACTICES

Title of the Practice:

Awareness on Environment Protection and Awareness on Civic Problems

The institution has created awareness on protection of environment and human rights among students through the production of documentaries on various environment issues and civic issues in and around Mangalore. As part of sensitizing the students, screening and analysis of such documentaries were organized in college for students as well as general public. The practice was undertaken during the time when the city was facing the problem of shortage of water and issues related to 'River Diversion'. Mass Communication being one of the effective media, the students here took this as a platform in not just learning it in academic environment but lending support to NGO's fighting for the cause.

The Practice:

As part of the practice the students undertook following methods

- Producing awareness documentaries on saving nature like - 'Save Yetthinahole', 'Organic Farming', 'Conserving Bio Diversity', 'Waste Management', 'Issues of MRPL', 'Issues of Nagarjuna Project', 'Save Earth', 'SEZ
- Participation of students in environment friendly campaigns like 'Save Netravathi' organised by various NGO's in Mangalore.
- Practical implementation of knowledge among students through visit to Pilikula Botanical Garden and trek to Western Ghat
- Interaction with prominent environmentalist Mr Niren Jain, Environment Activist Mr Dinesh Holla and Ms Swapna Noronha, Activist Mr Natesh Ullal, Social activist Ms Vidya Dinakar, Ms Teestha Setalvad, Mr Prasanna Heggodu, Film Maker Mr B.S Lingadevaru and Social activist and Educationalist Prof Dr G S Jayadev
- Public screening of movies on issues related to society like - 'Muzaffarnagar Baakhi Hai' on Communal issues, 'Naanu Avanalla Avalu' on LGBT Rights, and many more movies related to women issues Like 'Matrubhumi', 'Lakshmi'
- Production of short films on Corruption and Ragging issues and uploading it on social networking platform to reach the masses

INNOVATIVE PRACTICE

Title of the Practice:

Documentation of Oral Traditions and Culture.

Along with learning about media, the students here were provided with an opportunity to document such oral cultures and traditions which are undocumented. This project was not just part of their academics but also enhance

their knowledge with regards history and archeology. This practice was undertaken so that students enhance their knowledge and work on such things which are on the verge of extinction. These projects also held the institution in adding up to the archives of the institution.

The Practice:

As part of the practice the students undertook following methods

- Attending special classes and talks on oral history
- Field visit of students to the places where the history is not documented
- Collection of information from the senior citizens who become the source of oral history
- Screening of documentaries and short films for the better understanding of oral history and culture
- Production of video works by students on various oral history and culture

NITTE UNIVERSITY CENTRE FOR SCIENCE EDUCATION AND RESEARCH (NUCSER)

Dr. Indrani Karunasagar
Director

About the Institution:

Nitte University Center for Science Education Research (NUCSER) is a teaching and research centre under the ambit of Nitte University. It was established in 2013. Recently, the centre has been upgraded as an independent facility and has moved to a sprawling area at Deralakatte, with state-of-art research facilities. The centre at present has 14 scientists with expertise in diverse areas of biological science and is led by Dr. (Mrs) Indrani Karunasagar, an Internationally renowned scientist who has several patents and commercialised technologies to her credit. The centre is offering niche degrees keeping in tune with the emerging trends on career in research. In NUCSER the focus is on interdisciplinary science education and research. The centre offers both undergraduate and postgraduate degree programs in addition to its research activities. At present it has four programs, namely: B. Sc. and M.Sc. Biomedical science, M.Sc. Food Safety and Biotechnology, and M.Sc. Marine Microbiology and Biotechnology. All these programs are first of its kind in Karnataka and are designed keeping in mind the job opportunities in the field of research. The students develop skills in various high end molecular techniques and tools used in research and development. The impetus is on study of human health and the various infectious, non-infectious and environmental toxicants affecting human health. The centre also offers PhD in specific areas of biological science. The teaching methods employed in the centre are highly innovative and learner centric. The course curriculum has been designed in such a way that the students not only accumulate updated theoretical knowledge but also gain hands on practical experience in their field of study.

The research activities in the centre are divided into six groups, namely Division of Infectious Diseases, Division of Cancer Genetics and Molecular Medicine, Division of Food Safety and Nutrition, Division of Bioresource and Biotechnology, Division of Bioinformatics and Computational Genomics and Division of Environmental Health and Toxicology. The centre has externally funded research projects from premiere funding agencies such as DBT, DST, ICMR, and SERB.

Student monitoring

The centre has instituted a students welfare committee to monitor the students' activities. The committee consist of three faculty members and their job responsibilities are listening to students problems, addressing their concerns, helping in organizing the various cultural and sports activities, counseling, electing students committees, and acting as staff advisors. In 2015-16 various activities were conducted at the centre such as Fresher's day celebration,

Annual day celebration, Farewell party for outgoing students. Students have participated in various conferences and seminars conducted both within and outside the university and also won recognitions in the form of awards and prizes.

Students Welfare Committee

Members: Dr. Ramya, Dr. Rama Adiga, Dr. Akhila D.S.

In addition, the institute has several committees that have been formed to monitor the students' activities in the centre. The committees are as follows:

Anti –ragging Committee
Committee Against Sexual Harassment
Committee Against Substance Abuse
Student Grievance Cell
Women Cell
Placement and Career Guidance Cell

In addition, various other committees namely academic committee, lab activity committee, lab consumable committee and public relations have been formed for the smooth functioning of the centre. Each of these committees include three to four faculty members with one member designated as in charge.

The team was led by Dr. Anirban Chakraborty, Coordinator, NUCSER. This program was entirely funded by Japan Science and Technology Agency under the framework of **Japan-Asia Youth Exchange Program in Science (SAKURA SCIENCE PROGRAM)**, which aims at enhancing exchanges of the youths between Asian countries and Japan. The Nitte team also participated in an International Conference on Arsenic pollution. Nitte University bagged this prestigious SAKURA Exchange Program through a joint project proposal submitted by Dr. Harish Kumar Madhyastha from the University of Miyazaki, Japan and Dr. Anirban Chakraborty from NUCSER. Nitte was chosen from a total of twenty-one applicants and was the only University selected from India. The performance of the Nitte team was rated as ^{A++} by the host University of Japan.

- Dr. Indrani Karunasagar, on invitation by the Food Agricultural Organisation was a technical expert at a seminar and a round table discussion on AHPND National Action Planning held in Lucknow, Uttar Pradesh during the period 14th to 17th September, 2015.
- Dr. Indrani Karunasagar, who is Jury member for the UNESCO International Prize for Research in Life Science visited Paris during the period 21st to 24th September, 2015, for selecting candidates for UNESCO Prize for the year 2015.

- A seminar on “Applications of radiation and radioisotopes in Biomedical and Pharmaceutical Science” was organized in the Auditorium of the Institute of Architecture and Communication, Nitte University, Paneer campus, Deralakatte, Mangalore on 9th & 10th September, 2015. The scientists invited for the seminar were Dr. N. Sivaprasad, Dr. J. R. Bandekar, Dr. Grace Samuel and Mr. Padmanabha Prabhu from Bhabha Atomic Research Centre, Mumbai, specialized in the area of nuclear and radiological science. Prof. Dr. Indrani Karunasagar, Director (R&D), Nitte University and Dean, Faculty of Biological Sciences, welcomed the guests, Prof. C.S. Shastry, Principal, Nitte Gulabi Shetty Memorial Institute of Pharmaceutical Sciences, addressed the gathering and Dr. Anirban Chakraborty, Coordinator, Centre for Science Education and research, Nitte University, proposed the vote of thanks. The seminar was to create awareness among the faculty and research students to identify and generate the concept for research proposals. The faculty and research students from biomedical, pharmacy, dental, medical, allied health science and physiotherapy college attended the seminar.
- **Turnitin workshop:** Dr. Indrani Karunasagar, Director (R&D), Nitte University along with Mrs. Supritha Shetty, Sr. Librarian, K.S. Hegde Medical Academy visited Nitte Meenakshi Institute of Technology, Bangalore on 1st October, 2015 and conducted a one day workshop on the use of Antiplagiarism software “Turnitin”. The program was useful and all the M.Tech students subjected their thesis to Turnitin, the similarity index printout of which was required to be attached to their thesis before submission to VTU.
- Dr. Indrani Karunasagar Director (R&D), Nitte University deputed as the Chairperson of Inspection Committee along with Dr. Harsha Halahalli, Professor, Department of Physiology deputed as a member of Inspection Committee, for inspecting International Institute for Training and research in Reproductive Health (IIRRH) Bangalore on 19th Oct, 2015 for recognition of the centre as a Research Centre for Doctoral Studies of Nitte University.
- **Visit of Hon’ble Vice-Chancellor and Director (R&D), Nitte University to University of Minnesota, USA**
 Prof. Dr. S. Ramananda Shetty, Hon’ble Vice-Chancellor, Nitte University and Prof. Dr. Indrani Karunasagar, Director (R&D), Nitte University visited the University of Minnesota during the period 20th–24th October, to explore research collaborations in addition to faculty and student exchange. Prof. Toscano, Division of Environmental Health Sciences, School of Public Health had identified appropriate individuals for all the meetings. Prof. Toscano has been instrumental in the student and faculty visit of MPH program of Nitte University and being a Senior Professor and Dean has made arrangements for continuing the program to become one of exchange. Further, a meeting was held with Dr. Mostafa Keveh, Associate Dean for Research, Professor of Electrical and Computer Engineering, which has an outstanding record and appears among the top 19 ranking in the US. It would be interesting for engineering principal / faculty to be able to look into the possibilities of collaborations. Meetings with Dr. Julian D. Marshall, Associate Professor-Environmental Engineering, Department of Civil Engineering; Dr. Marshall Hertz, Professor of Medicine, Director, Living Transplant Project, Division of Pulmonary, Allergy & Critical Care; Dr. Karen Brown, Co-director, Interdisciplinary Centre for the study of Global Change (ICGC), Master of Developmental Practice (MDP) degree; Dr. Karin Quick, Director, Division of Dental Associate Dean, College of Dentistry; Dr. Julie Johnson, Associate Dean, College of Pharmacy; Dr. Raghavendra Rao, Associate Professor, Pediatrics, Division of Neonatology was very fruitful and all are keen to visit Nitte University and look into opportunities for sending their graduates here and accommodating our young faculty there. This collaboration would be feasible and vibrant and can be taken to the next stage immediately.
- The fourth Annual Symposium of the Coastal Karnataka Chapter of the Society of Biological Chemists (India) was held at the Centre for Science Education and Research, Nitte University, Paneer Campus, Deralakatte on 14th November 2015. This was the first time that Nitte University hosted this prestigious

annual event in her campus. Inaugurating the symposium, Prof. (Dr.) S. Ramananda Shetty, Vice-Chancellor, Nitte University, spoke of the need for integrating higher education in the country with research. Prof. (Dr.) D. N. Rao, Indian Institute of Science, Bengaluru, gave an overview of the history and the activities of the first scientific society of the country, started even before the Indian Independence. Prof. (Dr.) K.

Satyamoorthy, Director, School of Life Sciences, Manipal University, Manipal gave an overview of the activities of the Coastal Karnataka Chapter of the Society. The highlights of the Symposium were more than 15 talks delivered by Eminent Scientists from premiere Institutes in Bangalore, Chennai, Mumbai, Kerala and Mysore. Young researchers and postgraduate students presented posters on various topics ranging from basic to applied research on various categories in Life Sciences. The theme of the symposium was “One Health: An Interdisciplinary approach towards betterment of human, animal and environmental health”.

- Dr. Indrani Karunasagar was a resource person at the International Conference of Sabaragamuwa University of Sri Lanka 2015 during the period 19–21 Nov, 2015 and delivered a keynote address on “Challenges of Food Security – Need for interdisciplinary collaboration”
- Dr. Krishna Kumar B., Assistant Professor, attended the International Conference of Sabaragamuwa University of Sri Lanka 2015 during the period 19–21 Nov, 2015 and delivered a talk on “Genome sequencing of seafood-borne *Vibrio parahaemolyticus* VP49 reveals the presence of novel virulence attributes”
- Dr. Deekshit, Assistant Professor, attended the during the period 19–21 Nov, 2015 and delivered a talk on “Antibiotic resistance and molecular characterization of seafood isolates of non- typhoidal *Salmonella* by PFGE”.
- Dr. Indrani Karunasagar attended the Fifth International Symposium on Cage Aquaculture in Asia held on 26th November, 2015, at Kochi and delivered a lead lecture on “Microbial Diseases of Asian Seabaas/barramundi (*Latescalcarifer*)” in the technical session on Health and Environment Management.
- Dr. Indrani Karunasagar was the chief guest at the National Seminar on Recent Advances in Chemical Sciences held at St. Agnes College, Mangalore on 17th December, 2015.
- Mrs. Juliet Roshini Mohanraj presented a poster on “Occurrence of blaCTX-M-15 incoliphages isolated from sewage” at the First International Conference on Healthcare and Technical Research, held at Manipal University from 22nd-24th December 2015.
- **National Science Day 2016** was celebrated with great fervor on the 29th Feb, 2016 at Nitte University. Two distinguished Clinician Scientists Prof. V I Mathan and Prof. Minnie Mathan were felicitated for their Lifetime Contribution to Medical Research. The felicitation function was followed by a lecture by Prof. V I Mathan, on “Challenges in Clinical Research”. Dr. Indrani Karunasagar, Director (R&D), Nitte University, welcomed the gathering and spoke of the significance of celebrating this day. Hon’ble Vice-Chancellor of Nitte University Prof. S. Ramananda Shetty, Pro-Chancellor, Prof. M. Shantharam Shetty, Prof. Satheesh K. Bhandary, Dean, KSHEMA and Prof. J P Shetty, Registrar, KSHEMA were also present at the event. The event was jointly conducted by NUCSER and K.S. Hegde Medical Academy. Dr. Minnie Mathan conducted an interactive session with the students and staff of K.S. Hegde Medical Academy.

- **National Science Day Celebration at NUCSER:** The faculty of NUCSER organized several events such as Science Elocution, Science Modelling and Quiz for their students. Students participated in large numbers. The celebration was concluded by a formal prize distribution function. Dr. Indrani Karunasagar, Director, NUCSER and Mrs. Kiran T., Advertising Manager, Nitte University gave away the prizes to the winners.
- Dr. Indrani Karunasagar, delivered a guest lecture on “PhD the “Ifs” and “Buts”, “Whys and “Hows” on 27th Feb, 2016 at Yenepoya University, Deralakatte.
- NUCSER Annual sports day was held on 29th and 30th Jan, 2016. Prof. Dr. Sathish K. Bhandary, Dean, K.S. Hegde Medical College, inaugurated the sports day. Various sports events were conducted for both staff and students.
- Dr. Surinder Singh, Director, National Institute of Biologicals, Noida, visited NUCSER on 28th Jan, 2016.
- Dr. Raghuveer, Scientist, Aurigene Discovery Technologies Limited, Bangalore gave a talk on “Training immune system to fight cancer-Story of NP12 and PM170” on 25th Jan, 2016.
- Dr. Madhujit Damle (Technical Lead, South Asia). Thermo Fisher Scientific, gave a talk on “High Content Screening & Analysis using the Cellomics platform and conducted a demo of their instrument on 21st Jan, 2016.
- Dr. Harish Madhyastha, Faculty of Medicine, University of Miyazaki, Japan addressed the staff and students of NUCSER on the topic “Wound healing: Biology and Technology on 8th March, 2016.
- A one-day Indo-Swedish workshop on “**Assessment of Human Vulnerability to Harmful Microbial Bloom**” was conducted by NUCSER on 16th March, 2016 at the Webinar Centre of the Institute to study the impact of climate change effects. This is a collaborative project between India and Sweden. Dr. Indrani Karunasagar, is the Principal Investigator from Nitte University, India and Prof. Anna Godhe and Dr. Per Knutsson from the University of Gothenburg are the Swedish counterparts. The workshop included talks by eminent Scientists both from India and Sweden. Dr. Indrani Karunasagar welcomed the gathering and gave a brief introduction on the genesis of the project and the need for the workshop, which was followed by eight talks from the Swedish and the Indian scientists. Prof. Ramchandra Bhatta, Emeritus Scientist, ICAR, College of Fisheries, Mangalore highlighted the scenario in Mangalore. Dr. Anirban Chakraborty, Associate Professor and Coordinator of the Centre presented concluding remarks and proposed the vote of thanks.
- Dr. Dileep Vasudevan, Institute of Life Sciences, Bhubaneshwar visited the centre on 21st March, 2016 and gave a talk on “Structural Biology”.
- Dr. Indrani Karunasagar delivered a guest lecture on “Water quality and public health” at Yenepoya University, Deralakatte on 22nd March, 2016 on the occasion of ‘World Water Day’.
- Dr. Santosh Karanth, University of Utah, Salt Lake City, Utah, USA gave a talk on “Deranged pathways in metabolic diseases: Tales from the zebra fish model system” on 22nd March, 2016.

VIPs visit to the Institution

- In accordance with the MoU between University de Toulouse, Paul Sabatier and Nitte University, Prof. Michel Attiogbe, International Relations Officer, University de Toulouse, Paul Sabatier visited Nitte University during the period 7th – 9th October, 2015. On 7th October, a meeting was arranged with all the Heads of the Institutions, followed by a visit the Hospital. Later, Prof. Attiogbe visited K.S. Hegde Medical Academy and had a meeting with the Dean and all the Heads of department of KSHEMA, followed by visit to Central Research Lab, Stem Cell Centre, genetics Lab & other departments of the College and the Physiotherapy department. On 8th October, 2015, Prof. Attiogbe along with Dr. Indrani Karunasagar visited Nitte Engineering College and the Rural Psychiatry Centre. On 9th October, 2015, they visited the Pharmacy, Dental and Nursing College of Nitte University.

- Nitte University, Deralakatte, Mangalore and Ghent University under the aegis of the India Platform met in the Board room of Nitte University on 6th January, 2016. The participants from Ghent University included Prof. Dr. Ir. Mieke Uyttendaele, Prof. Dr. Ir. Greet Deruyter, Ms. Aline Carpentier, Prof. Dr. Ir. Dick Botteldooren, Mr. Willem Derde, Jolien Vandebroke, Dr. Jakob De Roover, Sandeep Kumar Shetty and Koos Fransen. The team had detailed discussion with the Heads of the constituent colleges of Nitte University to draw up specific programs. They visited the respective institutions of their interest and discussed research collaborations and joint submission of projects. The meeting was coordinated by Dr. Indrani Karunasagar.
- Dr. Harish Madhyastha, Faculty of Medicine, University of Miyazaki, Japan visited Nitte University on 7th March, 2016. He addressed the management members of the University and the Head of Institutes regarding the bilateral research interest and discussed the road map ahead for Miyazaki - Nitte research collaboration. This was followed by his formal induction as an Adjunct Professor of Nitte University Center for Science Education and Research.

Best Practices; & Innovations

Best Practice 1:

1. Taking NUCSER to the masses: popularizing the courses run by the center as rewarding careers in science

Goal: To create awareness among the prospective students and the public in general about the niche courses offered by the centre that are designed in tune with the emerging trend on career in science/-research through advertisements in print, electronic and social media, participation of faculty members in career guidance programmes, expert talks and interviews with local TV channels.

The context: Nitte University Centre for Science Education and Research was established in 2013 under the ambit of Nitte University with an aim of creating a state-of-the-art facility for biomedical research through an interdisciplinary approach. The focus in the centre is Human Health and Diseases comprising the infectious, non-infectious and the environmental modes of diseases. Health care involves several stakeholders including hospitals, pharmaceuticals, diagnostic services, medical equipment supplies, medical insurance regulators, research and development institutions. Over the last decade, India has witnessed a phenomenal rise in health sector. As the health care sector is continuing to grow, the employment opportunities for biomedical scientists are also increasing. Recognizing the need for producing quality biomedical scientists who could serve in health care sector in India, NUCSER started its teaching program with the B.Sc. and M.Sc. Courses in Biomedical Sciences and two years later introduced two more M. Sc. programs namely Food Safety and Biotechnology and Marine Microbiology and Biotechnology. These courses are first of its kind in the state of Karnataka and NUCSER stands among the few handful of institutes in the entire country that offer such unconventional courses, designed keeping in mind the job opportunities in the field of research. However, it was necessary to create awareness among the students and the public about the striking features of these courses because these courses are very different from the conventional ones that are being offered in innumerable Universities across the country.

The Practice

In order to enhance the popularity of the courses of the centre, the following steps were practiced.

1. The first step was to identify the target audience. The faculty members of NUCSER comprise fourteen eminent scientists with expertise in various fields of biological sciences and are headed by a very accomplished and distinguished scientist in India, Dr. Indrani Karunasagar. The faculty is quite aware of the importance of research and the potential of making a successful career out of research but it was a challenge to make it reach the common man, particularly the students who are at crossroads of their lives, waiting to make the next move and choose their field of study.
2. The second step was to identify the striking features of the courses with an emphasis on the job opportunities. These striking features include a) Unique: Combination of knowledge of health science and the importance of molecular biology and biotechnology, b) Rare: Very few institutes in India are offering these courses, NUCSER is the only institute in the entire state of Karnataka, c) Closely related to Medical science: The essence is learning about human health and disease through a combination of theoretical and practical knowledge on diagnosis, molecular mechanisms, and therapeutics of human diseases d) New vistas for employment: employment is research and career as scientists or technical experts, e) Application oriented: designed to empower students with knowledge about special applications in health care, f) Highly interdisciplinary: knowledge on diverse areas that encompass the concept of health care, g) Skill-based: Develops skills in various aspects particularly in molecular biology.
3. The third step was to put maximum efforts in reaching the masses and explain these striking features. Initially, advertisements were put on print media and simultaneously on University website. Gradually, the queries started coming in and care was taken to explain the prospects of these unique courses as convincingly as possible personally to the students and the parents in very simple and easy to understand terms. Then, invitations came in from various other colleges and universities to address their students about these programs and awareness was created by participating and delivering lectures in career guidance seminars. Finally, participation in talk shows in local TV channels and explaining about the activities of the centre made tremendous effect on the intake of the students during the academic year.

Evidence of Success

The various strategies followed to create awareness and to increase the popularity of the courses of NUCSER proved to be highly successful with regards to the intake of the students under various categories in the UG and PG programs. For instance, in 2013, when NUCSER had just started, only 11 students joined for B.Sc. Biomedical Science and M.Sc. Biomedical against an intake limit of 30 and 20 respectively. A few students discontinued mid way and the final number was 9 for B.Sc. and 8 for M.Sc. Biomedical Science. However, in the very next year (2014), the intake was full and all the 30 seats were taken up. In 2015, the demand was so high that the University management decided to increase the number of intake to a maximum of 50 from the existing 30 and the enrollment was completed well ahead of time with many students opting to be considered as wait-listed candidates. The demand ratio also showed a steep upward trend.

These results indicate that the process of creating awareness influenced the student intake in a very positive manner. Despite the increasing demand, the fee structure remained more or less the same with marginal increase from the previous years. Moreover, exemptions in tuition fee (up to max 50%) were offered to the meritorious students, which also reflected very positively on the quality of student enrollment.

Problems Encountered and Resources Required

The biggest challenge encountered was the general ignorance about the various aspects that these courses deal with. In India, the trend is to go the conventional way and to enroll in highly popular courses, even if they have

reached saturation. However, in recent years, the student community is quite updated about the happenings and many are willing to tread the path less taken. The only problem was to get to those students and to identify them. Once that was done, it was easy to convince them about the positive attributes of these courses.

Best practice 2:

Title: Imbibing the culture of quality research: encouraging the faculty and the students to contribute towards making NUCSER a premier health science research centre.

Goal: To instill the concept of quality research among the faculty members and to impart knowledge about responsible conduct of research for the postgraduate students.

The context: Nitte University Centre for Science Education and Research (NUCSER) was established in 2013. In 2015, the centre moved to an independent building of more than 30,000 square feet area with state-of-the-art facilities for both basic and applied research. The infrastructure was upgraded and several high-end equipments required for advanced research were procured. The centre boasts of eminent scientists from diverse areas of biological science with years of experience in international and national level. The director of the centre, Dr. Indrani Karunasagar, who also happens to be the Director of Research and Development of the University, is one of the most accomplished and reputed scientists of the country. Recognizing the need for quality research that truly reflect the quality and the brand of the institute, the IQAC in combination with the director of the centre, worked out several strategies with an aim of putting NUCSER in the map of health science research in India.

The Practice

1. The first step was to create an atmosphere in the centre that encourages creative research. Instead of having separate departments, research groups were created and all the facilities and the resources are made available for common use. Depending on the expertise of the scientists and the themes that fit with the vision of the centre, six divisions/groups were made namely Division of Infectious Diseases, Division of Cancer Genetics and Molecular Medicine, Division of Food Safety and Nutrition, Division of Bioresource and Biotechnology, Division of Bioinformatics and Computational Genomics and Division of Environmental Health and Toxicology.
2. The second step was to encourage the faculty members associated with each group to envisage research projects that involve not only the groups within the institute but also other faculty from other institutes, both within and outside the university. This was done to bring about the concept of Interdisciplinary Research.
3. The third step was to include subjects like Research Ethics and IPR in the course curriculum for postgraduate degree programs to sensitize the students about responsible conduct of science and research.
4. The fourth step was to invite eminent scientists from National and International Universities for guest talks and interaction with faculty members and students about their field of studies and possibilities on future collaborations.
5. The fifth step was to encourage faculty members to participate in scientific conferences and workshops and to update themselves on contemporary research in their fields.
6. The sixth step was to make faculty aware of the various funding sources and agencies and the calls for proposals by encouraging them to keep a track of such announcements in the websites.
7. The seventh step was to make the faculty aware of the research incentives available at the University level and the recognition that come with high-end research.

8. The final step was to make the faculty and the students aware of the issue of plagiarism in research publications, mandatory checking of manuscripts and PG dissertations by anti-plagiarism softwares before submission, and to publish research papers in high impact factor peer reviewed journals.

Evidence of Success

The various strategies reflected very positively on research activities of the centre. At present, the total faculty strength of NUCSER is 14. During the last academic year, 9 out of 14 faculty members received major projects from external funding agencies such as DBT, DST-SERB, DST-WOS, SIDA, NAAS, and ICMR worth Rs. 1.82 crores in total. Similarly, 9 faculty members received Nitte University funds to the tune of 13.35 lakhs in total. Ten research projects (for a total of Rs. 1.93 crores) were submitted to external funding agencies and are currently under review process. The research publications also showed a great improvement. In the last academic year, a total of 15 research papers were published, of which, 13 were in International journals and 2 in national journals with a cumulative impact factor of 25. Agreements on student exchange and collaborative research were made with 5 International Universities and 2 National Universities. A total of 3 conferences were organized by the centre and 2 faculty members served as experts, chairpersons or resource persons. A total of 11 members including 7 students and 4 faculty members from the centre were selected for Sakura Science Program at the University of Miyazaki, Japan for two weeks intensive training on cutting-edge technologies in biomedical research (Oct 3-Oct 21) funded completely by JST, Japan. Thus, the progress on research was phenomenal for an institute, which is just into the second year of its existence.

Problems Encountered and Resources Required

The University has been quite accommodative of all our requests and they have been quite generous in their investments on our research centre. Thus, the problems encountered were practically none.

Innovations:

- Implementation of foundation course for M.Sc. with common subjects for all streams in the first year.
- Interdisciplinary network by having only divisions in study but no departmental divisions in the Centre
- Active learning classes, by the use of pedagogic teaching techniques
- Series of seminars and lectures by eminent scientists and also by university appointed adjunct professor are introduced in the curriculum.
- Inclusion of the course “Research Ethics and Intellectual Property Rights” in the M.Sc. Curriculum.
- An attempt towards paper free Staff communication is made by the use of group messaging both as emails and short communications by text messages

Infrastructure

- The centre is well equipped with adequate infrastructure including building space, classrooms, library, webinar rooms laboratories with advanced equipments for effective implementation of the teaching and research programs

- The university allocates a part of the budget for procurement of consumables for conducting practical classes.
- Class rooms are fitted with overhead projectors
- The institute is completely WiFi enabled and dedicated high speed internet connections are available for conducting e-classes.

The following facilities available for extra curricular activities at the Centre:

- Indoor sports like carom and chess are available
- Gymnasium, auditorium etc. is centrally available

Continuing education and staff training

Faculty members are encouraged and ably supported by the university to participate in programs designed towards faculty development viz refresher courses, HRD programs, staff training, summer/winter schools, seminars, conferences and training workshops for continuous improvement of teaching curriculum and quality of research

Achievements

Awards

Dr. Indrani Karunasagar, Director (R&D) & Dean- Faculty of Biological Sciences, received the prestigious National Technology Development Award by the Ministry of Science & Technology, Government of India on 11th May, 2015, for her contribution to phage therapy for which she has also received a patent. Biomedical application of this technology is being pursued in the Centre for Science Education and Research, Nitte University.

- Dr. Indrani Karunasagar has been nominated Member of the National Scientific Advisory Council, Government of India.
- Dr. Indrani Karunasagar was awarded Sir. M. Visvesvaraya Senior Scientist State award by the Government of Karnataka for excellence in research and lifetime contribution to Science and Technology. This award carried a cash prize of Rs.1,00,000 (Rupees One Lakh) a memento and a citation and was given away by the Hon'ble Chief Minister of Karnataka and President KSCST, Sri. Siddaramaiah on 30th Dec, 2015 at the Indian Institute of Science, Bangalore
- Dr. Biswajit Maiti, Assistant Professor, selected for Advanced training in Diagnostics development at Obihiro University, Japan for a period of one year.
- Dr. Thejaswini Venkatesh was awarded Young Scientist Award in Biomedical Science by Venus International Foundation in December, 2015.
- Dr. Dinesh S.M received the Best Poster Award from Indian Science Congress Association (ISCA) in January, 2016

Student Achievements

- Ms. Srividya, topper of M.Sc Biomedical Science was awarded Dr. Indrani Karunasagar Gold Medal during the convocation held on 5th September, 2015.
- A total of seven students from MSc Biomedical Science were chosen for the Japan Science and Technology funded Sakura Science Program for a three weeks intensive training on cutting edge techniques in biomedical research at the University of Miyazaki, Japan during October 2015.

Collaboration with Centre's of Excellence in India and abroad

The centre has entered into an MoU with University Paul Sabatier, Toulouse, France and several collaborative activities such as submission of joint project proposals, student exchange have been undertaken.

The Centre has collaboration with University of Miyazaki, Japan on student exchange and research.

Collaborative projects are ongoing with Sabargama University, Sri Lanka, University of Goteborg, Sweden, and University of Gent, Belgium.

NITTE INSTITUTE OF ARCHITECTURE

Prof. Vinod Aranha
Director

About the Institution:

Nitte Institute of Architecture (NIA), a constituent institution under Nitte University was established in 2015 at its Paneer campus at Deralakatte, Mangalore. It is recognized by the Council of Architecture, India. The school is envisioned to be a center of excellence in tropical architecture with global connections and facilities for research, and will train, consult and teach programs in architecture, design and allied fields.

NIA is transitioning into what would eventually be a world-class institution offering degree programs in architecture, urban planning, product and interior design, conservation and the arts. The institute will lead a new generation of design professionals with a deeper understanding of architecture and design for a more mature use of urban planning, energy and sustainability practices.

The institute is envisioned to be a centre of excellence in tropical architecture with partners across the globe. A hallmark of the program is the cooperative education model that is introduced as a hybrid within the school's curriculum. Here students have the opportunity to intern with architects, urban designers, artists and artisans all through the course, gaining invaluable practical experience. Research centers are being set up dealing with smart cities, alternative technologies and energy/sustainability. Faculty is encouraged to go beyond teaching and either perform research, train or consult. Partnerships are being forged with universities in Europe and North America. The U.S. Green Building Council would collaborate on the LEED Lab program.

Student Monitoring

The institute has facilitating mechanisms like guidance cell, placement cell, grievance redressal cell and welfare measures to support students. Specially designed inputs are provided to the needy students with learning difficulties. Provision is made for bridge and value added courses in relevant areas. For example, teaching of English, communication and presentation skills. The institution also has a well-structured, organized guidance and counseling system in place. Here the teacher guardian scheme reaches out to every student on a one-to-one basis.

Board of Studies and Curriculum Development

The Board of Studies (BoS) was formed as a core committee that helped with designing and formulating the course curriculum framework, and syllabus. The members were as follows:

- Dr. Rajshekhar – Director, Curriculum Development, Nitte University – Permanent Member
- Prof. Vinod Aranha – Director, Nitte Institute of Architecture
- Ar. Melinda Albuquerque – Assistant Professor, Nitte Institute of Architecture
- Ar. Vivek Prabhu – Associate Professor, Nitte Institute of Architecture

- Dr. Saket Sarraf – Architect and Planner with academic industry Affiliations
- Ar. Kanchana Ganesan – Practicing architect with a strong research background

Workshops & Seminars

The institute emphasizes on a hands-on approach and one of the ways this is done effectively in developing hand skills. Weekends are allotted for such practical projects. This has resulted in a stimulating perspective of the architectural program that has widened to incorporate practicality together with the study of theoretical courses and studio-oriented drawing work.

Workshops were conducted at the Pilikula Artisans Village, a unit under the Pilikula Nisarga Dhama at Mangalore. Students were given a choice of four trades and asked to choose any two. The options were carpentry, weaving, pottery and cane work in semester I. The four workshops ran concurrently for a duration of four weeks each. Hence each student got to participate in two workshops of their choice over a total period of 8 weeks.

The feedback from students was very promising and full of learning. It was decided to continue with similar workshops for the subsequent year until adequate capacity is built at the school of architecture.

In the carpentry section, students learned to use various wood-working equipment in the first week. This group worked with different types of wood understanding their grains and learning to handle each type. Based on interest, several types of wood joinery and methods of etching resulted in wood models that replicated joint conditions including etching a memento with initials of the Institute. Over the weeks that followed students graduated to making brick moulds for the 'Building Construction and Material' class, and a sitting stool to showcase their knowledge of wood-jointing associated with furniture.

The learning process of the pottery workshop was more experiential than theoretical where students started softening clay by stamping it with their bare feet. They continued with the wheel, where they molded clay to give it a shape such as a pot, vase, plate and a diya. They also learnt some magic tricks and the science behind it as well, like the magic pot in which water once filled, doesn't pour out when you try to. Both the teachers who taught wheel work and detailed pottery were very patient with the student's right through the making process.

The handloom workshop was well endowed with machines ranging from traditional charakas to full-fledged handloom weaving machines. The skilled artisans helped orient students in the whole process of weaving very quickly. Student used four different machines to produce new towels and lungis during the weaving process.

Students at the cane and bamboo weaving centre commenced their workshop with a briefing about the history and varieties of cane followed

by a visit to the forest to identify the plant that provided cane as raw material. Training was provided to clean cane and techniques of flaming to bend, twist and turn the raw material. Products produced by students ranged from a magazine basket to a rocking chair, lamp shades, wall hangings, door hanging, an apple chair, and also techniques of mat and basket weaving.

The laterite carving workshop was organized in association with the Dakshina Kannada Nirmithi Kendra at Surathkal at the beginning of the Spring Semester. Resource artisans taught students the theoretical aspects of laterite stone to understand its properties. Hands-on work involved using a combination of traditional instruments and machines to carve laterite stone. Student teams produced various carved stone models that have been displayed at the institute.

The kite design workshop was conducted in association with expert kite enthusiasts from 'Team Mangalore'. The workshop coincided with the international kite festival at Panambur beach in January 2016. NIA utilized the immense capacity of international professional kite flyers to mentor first year students of architecture on kite design and technicalities of lift and drag at the beach and the institute. International groups from the U.K. group led by Bob, and the Australian group led by Michael Alvares of Kite Kinetics conducted workshops on kite making and flying for the students at the NIA school premises.

VIP's visit NIA

- Visit by Ar. Dean D'Cruz, eminent architect from Goa – addressed students and faculty on current architectural thinking.
- Visit by Ar. (Dr.) Tathagata Chatterji, Professor at the School of Planning and Architecture, Vijayawada – evaluated student work by jury for 'theory of design' and 'foundation studio – 2'.
- Visit by Ar. Krishna and team that included Dr. Yogananda, structural engineer from interior Tamil Nadu and Bangalore – evaluated student 'measured drawing' work of traditional houses of Dakshina Kannada and Udupi districts.
- Visit by Indo-European platform team comprising Mr. Wilhiem, Dr. Jakob, Ms. Jolien led by Mr. Sandeep Shetty, Head of the India coordination center – visited students to see work done on measured drawings, and held discussions with the Director to assess potential to anchor an architectural heritage project at Belpa Village.

- Prof. Neelkanth Chaaya (former Director of Faculty of Architecture, CEPT University, Ahmedabad) had conducted a session for the faculties on 21st August, 16 which was during the beginning of the semester to orient the faculties and elaborated on various teaching methods for the Architectural Program. The following the session was extended to the First year inducted students to give them a wider perspective about the Program of Architecture.

Externally funded research projects

- Currently there are no externally funded research projects.
- One project developing an adaptive thermal comfort model for warm humid climates progressed to the pre-final stage of approval and was shelved by Vlir-uos, the funding agency from Europe.

Research leading to PhD degree

- Currently there is no faculty pursuing a PhD degree.
- Two faculty members have expressed interest in pursuing a PhD degree.

Publications

- Currently there are no publications from the institute.
- Faculty is encouraged to publish research, and we hope to have publications in the forthcoming year.

Community Services, Extension and Consultancy Services

- Currently there are no community services, extension and consultancy services offered by the institute.
- Plans have been drawn to engage the local community in the forthcoming year. A mechanism that takes care of financial and legal aspects has been formulated to allow the institute to provide consultancy services in the year ahead.

Best Practices and Innovations

Best Practices

The institute is in the process of compiling a list of best practices for future utilization. Some of them include:

- Academic formats that will advance student development: grading, attendance, parent consent for field trips, academic excellence and nomination to leadership positions in the student council.
- Management and security systems

Innovation

The institution is geared to promote an ambience of creativity innovation and improving quality. Some of these are –

- The buddy system to promote learning through the ‘Nobody left behind’ initiative
- Bringing in eminent practicing architects to run one-off projects in the foundation studio in a cyclic manner

Infrastructure

The institute commenced classes in an existing building on Paneer campus in line with the space requirement stipulated by the Council of Architecture. The institute has 3000 sqm (32,300sft) of built-up space in three floors.

The institution adopts policies and strategies for adequate technology deployment and maintenance. The ICT facilities and other learning resources are adequately available in the institution for academic and administrative purposes. The staff and students have access to technology and information retrieval on current and relevant issues. The institution deploys and employs ICTs for a range of activities.

Structural facilities including sophisticated equipments [added during 2015-16]

The institute has procured furniture and equipment in stages to run a successful B.Arch degree program. Total equipped Instruments and equipment of about Rs. 23.28 lakhs were provided in the year 2015-2016.

Budget for the year 2015-16 is Rs.81.57 lakhs

Sports and Cultural Activities

1st February 2016: Nitte Institute of Architecture hosted its first sports day organized by sports captain Dhanush Kumar and team of students at Mangalore University grounds. The program commenced with an inaugural ceremony presided by chief guest, Prof. Rajshekar, Director of Curriculum development, Nitte University. After the impressive march-past and oath-taking ceremony, the chief guest declared the event open with the participating teams Design, Build and Plan running for the scheduled athletic events. Principal of the NGSM Institute of Pharmaceutical Sciences, Dr. C.S. Shastry graced the occasion with his presence.

As the program came to a close, Mr. Supreet Raj, a phenomenal athlete himself, handed out the prizes to the students with some words of advice. The winning team was Team Design, followed by team Build and team Plan. Dhanush Kumar and Navya R. bagged the overall men's and women's trophies respectively. It was a good effort overall by team NIA.

Cultural Activities:

Orientation Day:

Nitte University branched into the field of architecture with the new school, Nitte Institute of Architecture (NIA). It has been conceived and envisioned to be a centre of excellence in tropical architecture and is following the cooperative education model in addition to its regular curriculum. The Orientation day was on 24 August 2015, for the first batch of students and their parents. The formal program started at 9:00 a.m. in the college auditorium. Dignitaries present were Prof. (Dr.) S. Ramananda Shetty, Vice-Chancellor of Nitte University, Prof. Neelkanth Chhaya, Former Director of CEPT Ahmedabad, Prof. Rajshekar, Director of Curriculum Development at Nitte University, Lt. Col. Surene Subbiah, Director of Student Affairs, and Prof. Vinod Aranha, Director of Nitte Institute of Architecture who graced the occasion and inspired students and parents with a warm welcome and wise words. After a short tea break, there was an informal session where the freshers were briefed about the five-year program and the expected course structure that would be followed. A session, 'to break the ice' was introduced where each student spoke a little about themselves and got acquainted with each other, which evidently put everyone at ease.

Debutants' day:

The Debutants' day for the first year students of the B.Arch program was held on 19 October, 2015. Chief guest Dr. M.S. Moodithaya, Registrar of Nitte University inaugurated the very first issue of the NIA newsletter, titled

‘Estrade’. He also introduced and the entitled the Student Council members with a badge and an honour of responsibilities. Director of NIA, Prof. Vinod Aranha with faculty members, Prof. Raviraj (H.O.D. of NICO) and other members of NICO faculty were present on this occasion. The students of the Mass Communication department eagerly joined to celebrate this occasion and participated alongside in the events. The hour-long formal session of the program started at 3:00 P.M. followed by a tea break. After scrumptious snacks, the function translated into an informal affair with some very entertaining performances by the students. A trail of fun games and activity was arranged and organized by the students of NIA. The students put up a good and successful show.

Republic Day:

The Republic day program started off with a soulful prayer sung by the students of Mass Communication at 8:30 in the morning. Students of all the different institutes gathered near the Kshema Auditorium to witness the program. Soon after the prayer the tri-coloured flag was hoisted by the chief guest along with the help of the deans of other Nitte institutions. A spectacular dance was put up by the students of NIA which also included on the spot paintings which truly conveyed the message of patriotism. The short program concluded by a dance performance by the dental students.

Continuing Education and Staff Training

A faculty orientation day was conducted by eminent academician Prof. Neelkanth Chhaya, former Director of CEPT University, Ahmedabad on August 21, 2015. This session was also utilized to coordinate with members of the Technical Advisory Group, an informal group of eminent academicians, practitioners, scientists, doctoral scholars from within India and around the world.

Achievements – Awards, Prizes, Ranks, Recognitions etc – Both for Staff and Students

‘PATANG’, a kite flying competition, organized by Team Blue and Souhardha Yuvaka Mandala, Mangalore was held on the 21st of February, at Someshwar beach. After an exclusive workshop of working with kites, the students of second semester B.Arch. of NIA took advantage of the skill learned and participated in this open competition. They diligently designed various kinds of kites and came up with exceptional designs. A unique combination of delta and box-kite designed by students of NIA won the first prize at this competition.

Accreditation

The institute has received approval for conducting the B.Arch program for 2015-16 from the Council of Architecture, New Delhi with an inspection team visiting the institute and recommending suitable measures for its direction.

Collaboration with Centres of Excellence in India and Abroad

The institute has initiated tie-ups with reputed institutions within India and abroad. Some of them are –

- U.S. Green Building Council, Washington D.C. – LEED Lab program within the curriculum
- University of Cincinnati at Ohio – Cooperative education program
- Building Research Council, Champaign, Illinois – Energy and sustainability research

Any other Matter

The institute places a high degree of emphasis on character and values as a means of developing sound professionals with high ethics, trust and integrity. Constant mentoring is provided by the director of the institute. A suitable student and faculty development program is proposed to be held in association with the parent Nitte University during the following year.
