Academic and International Collaboration Visit

02 June 2026

Dr. N. S. S. Ramakrishna, Associate Professor, Department of Electrical and Electronics Engineering (EEE), NMAM Institute of Technology, Nitte, undertook an international academic and research visit to Japan and Malaysia with the objective of strengthening global academic collaborations and exploring emerging research opportunities.

During his visit to Ritsumeikan University, Japan, he was invited to deliver a lecture on Electric Vehicles as part of the university's academic programme. He spent four days engaging with faculty members through research discussions, academic interactions, and deliberations on prospective collaborative research initiatives.

As part of his professional engagements in Japan, Dr. Ramakrishna also visited Kyoritsu Electric Corporation, where he presented his ongoing research projects and held discussions with the company's representatives on potential industry-academia collaborations, technology development, and future research partnerships.

Subsequently, he visited the CAIRO Laboratory at Universiti Teknologi Malaysia (UTM), where he interacted with the Laboratory Director, Dr. Ibrahim Venkat. The visit provided valuable insights into the laboratory's advanced research infrastructure and facilitated discussions on student internship opportunities, joint research initiatives, and the establishment of long-term academic collaborations between the two institutions.
